**AI in Social Studies Education** Christopher H. Clark, Cathryn van Kessel, 2025 The introduction of widely available generative AI tools has caused a frenzy of both positive and negative reactions Between utopian visions and apocalyptic predictions of AI's impact on education there is a need to thoughtfully consider what education in the age of AI can and should look like This volume focuses on the implications of AI technology for teachers in K 12 and university settings providing a careful look at its affordances and drawbacks for social studies curriculum and teaching Scholars specializing in the field of social studies education provide information and practical ideas for teaching with current technology alongside frameworks for thinking about future iterations of AI This book fills a critical need especially among educators to consider the current and potential future impacts of AI while avoiding the traps of alarmism or techno utopianism Whether skeptical or enthusiastic about AI every social studies educator will find something useful to their practice in this book Book Features First ever compilation of AI considerations and strategies in the context of social studies education Nontechnical explanations of what AI can do and not do in practical educational contexts to enable educators to approach its use with careful judgment Advice for educators to help them assess future iterations of AI technology Critical considerations of AI across multiple contexts e g ethics equity multilingual learners cybersecurity Work from leaders in technology and social studies education across Canada and the United States Contributors Erin C Adams Curby Alexander Elizabeth Barrow Daphanie Bibbs Ariel Cornett Matthew Cress Kevin Donley Leslie Smith Duss Lindsay Gibson Thomas C Hammond Marie Heath Dawnavyn James Patrick Kane Dan Krutka Liran Ma Tim Monreal Rachel Moylan Julie Oltman Zilong Pan Michelle Reidel Elizabeth C Reynolds Tina C Soliday Vi Trinh Bretton A Varga [Innovations and Challenges in Social Media Discourse Analysis](#) Michele Zappavigna, Andrew S. Ross, 2024-12-27 [Innovations and Challenges in Social Media Discourse Analysis](#) provides a key introduction to the analysis of everyday discourse on social media platforms Outlining the challenges involved in the study of social media discourse that includes social interaction relationality intersubjectivity and intermodality this book takes a social semiotic approach to offer a useful reconceptualisation of existing tools and introduces new methodologies to help those studying in this area Drawing on a range of corpora that feature tweets Instagram photos YouTube comments and emoji this book is essential reading for students studying modules on discourse analysis and language and media **Mastering AI** Jeremy Kahn, 2025-07-08 A Fortune magazine journalist draws on his expertise and extensive contacts among the companies and scientists at the forefront of artificial intelligence to offer dramatic predictions of AI's impact over the next decade from reshaping our economy and the way we work learn and create to unknitting our social fabric jeopardizing our democracy and fundamentally altering the way we think Within the next five years Jeremy Kahn predicts AI will disrupt almost every industry and enterprise with vastly increased efficiency and productivity It will restructure the workforce making AI copilots a must for every knowledge worker It will revamp education meaning children

around the world can have personal portable tutors It will revolutionize health care making individualized targeted pharmaceuticals more affordable It will compel us to reimagine how we make art compose music and write and publish books The potential of generative AI to extend our skills talents and creativity as humans is undeniably exciting and promising But while this new technology has a bright future it also casts a dark and fearful shadow AI will provoke pervasive disruptive potentially devastating knock on effects Leveraging his unrivaled access to the leaders scientists futurists and others who are making AI a reality Kahn will argue that if not carefully designed and vigilantly regulated AI will deepen income inequality depressing wages while imposing winner take all markets across much of the economy AI risks undermining democracy as truth is overtaken by misinformation racial bias and harmful stereotypes Continuing a process begun by the internet AI will rewire our brains likely inhibiting our ability to think critically to remember and even to get along with one another unless we all take decisive action to prevent this from happening Much as Michael Lewis's classic *The New New Thing* offered a prescient insightful and eminently readable account of life inside the dot com bubble Mastering AI delivers much needed guidance for anyone eager to understand the AI boom and what comes next *The Routledge Companion to Remix Studies* Eduardo Navas, Owen Gallagher, xtine burrough, 2025-03-27 The Routledge Companion to Remix Studies 2nd Edition comprises contemporary texts by key authors and artists who are active in the interdisciplinary field of remix studies As an organic international movement remix culture originated in the popular music culture of the 1970s and has since grown into a rich cultural activity encompassing numerous forms of media The act of recombining pre existing material continues to bring up pressing questions of authenticity reception authorship copyright and the techno politics of media activism especially with the emergence of artificial intelligence which relies on remix methods and principles for content production This book approaches remix studies from various angles including sections on history aesthetics ethics politics and practice and offers theoretical chapters alongside case studies of remix projects This second edition includes ten new chapters and nine revised chapters Reprinted chapters from the first edition are updated with editorial prefaces This volume offers in depth insight for long term relevance among the many interdisciplinary fields that rely on and also contribute to remix studies This companion is a valuable resource for both researchers and remix practitioners as well as a teaching tool for instructors using remix practices in the classroom Artificial Intelligence for Urban Planning Thomas W. Sanchez, 2025-09-22 This book aims to introduce planners to AI outlining essential concepts terminologies and methodologies AI now promises to reshape urban planning but as with many technological innovations AI also introduces ethical practical and organizational challenges Understanding both AI's current capabilities and its limitations is essential for planners even as we acknowledge the rapid and unpredictable nature of its evolution Chapters address some of these complexities not by providing definitive answers but by introducing urban planners to core AI topics The book shows how planners can effectively use AI in their daily practices engage constructively with technical specialists and critically assess the

appropriateness of these technologies in different planning contexts This book will be of interest to both urban planning professionals and researchers

**Invisible Rulers** Renée DiResta, 2024-06-11 An essential and riveting Jonathan Haidt account of the small communities of propagandists revolutionizing politics culture and society Invisible Rulers is about a profound transformation in power and influence that is altering our politics our local government and even our relationships with friends and neighbors Today small communities of propagandists increasingly shape public opinion and even control our relationship to the truth Our shared reality has splintered into discrete bespoke realities driven by algorithms influencers and curated content Very little can bridge the divide thereby making democratic consensus nearly impossible to achieve Renée DiResta exposes how these propagandists and their followers undermine the institutions that make society work from anti vaccine zealots who flood social media with fringe viewpoints to influencers who use AI generated images to manipulate our perception of reality She also provides readers with a new conception of civics that helps us understand and fight back against these new invisible rulers
