

Viral Replication

Reading Comprehension Passage

QUESTIONS:

1. What is the initial step of viral replication?

2. How does a virus penetrate a host cell?

3. Describe the role of the host cell's machinery in viral replication.

4. What are the main components synthesized during the biosynthesis phase?

5. Explain the difference between cell lysis and budding in the release of viral particles.

6. Why is understanding viral replication important for the development of antiviral therapies and vaccines?

Name: _____

Date: _____

Viral Replication

Viruses are unique entities that rely on host cells to replicate and propagate. Understanding the process of viral replication is crucial for developing strategies to combat viral infections.

Viral replication begins with the attachment of the virus to the surface of a host cell. This attachment is mediated by specific viral proteins that bind to receptors on the host cell membrane. Once attached, the virus penetrates the host cell either by fusion with the cell membrane or by endocytosis, depending on the type of virus.

Following penetration, the virus releases its genetic material into the host cell. This genetic material may be DNA or RNA, single-stranded or double-stranded, depending on the type of virus. Once inside the host cell, the viral genetic material hijacks the cellular machinery to produce viral components.

In the biosynthesis phase, the host cell's enzymes and ribosomes are used to transcribe viral genes into messenger RNA (mRNA) and translate them into viral proteins. These proteins include structural proteins for the viral capsid or envelope, as well as enzymes and other proteins necessary for viral replication.

Next, the newly synthesized viral components are assembled to form complete viral particles. This process often occurs in specific regions of the host cell, such as the nucleus or cytoplasm, depending on the virus. Once assembled, the newly formed viruses mature and are ready to be released from the host cell.

Finally, the release phase involves the exit of mature viral particles from the host cell. This can occur through various mechanisms, including cell lysis, where the host cell is ruptured, or budding, where the virus acquires a portion of the host cell membrane as an envelope during its exit.

Understanding the intricacies of viral replication is essential for developing antiviral therapies and vaccines to target specific stages of the viral life cycle.

Reading Comprehension Viral Challenge Tricks

Zoe Gavriilidou, Lydia Mitits

Reading Comprehension Viral Challenge Tricks:

OECD Skills Studies OECD Skills Strategy Diagnostic Report: The Netherlands 2017 OECD,2017-12-01 The OECD Skills Strategy Diagnostic Report Netherlands identifies the following three skills priorities for the Netherlands fostering more equitable skills outcomes creating skills intensive workplaces and promoting a learning culture *Krasner's Microbial Challenge: A Public Health Perspective* Teri Shors,2018-12-24 The fourth edition of Krasner s Microbial Challenge focuses on human microbe interactions and considers bacterial viral prion protozoan fungal and helminthic worm diseases and is the ideal resource for non majors nursing programs and public health programs Situating Language Learning Strategy Use Zoe Gavriilidou,Lydia Mitits,2021-01-06 This book presents the latest research on the role of strategy use and development in second and foreign language teaching and learning It comprises a wide selection of studies which cover topics such as strategic training of young EFL learners promoting critical thinking through video gaming language learning strategies for languages other than English and the contribution of language learning strategies to the development of the four language learning skills It will equip scholars and practitioners with the knowledge to help them better appreciate how language learning strategies contribute to and are linked with language learning processes The contributing authors share research from their various contexts which range from primary to tertiary education and discuss the need for fine tuned strategy categorization conscious self regulation and proposed strategy instruction Storytown Ride the Edge Theme 3 Grade 5 Harcourt School Publishers,Isabel L.
