Intellectual Creativity in First-Year Composition Classes Heidi Wall Burns, Michael MacBride, 2016-10-12 Today's first year composition classrooms are largely reflective of the writing pedagogy that has been used for the last 200 years. Unfortunately, this methodology does not meet the research or writing needs of today's college and university students. Burns and MacBride were determined to make their first year composition courses more relevant to their students and sought a way to revolutionize their syllabus to do so. Building on the work of Tom Romono, Nancy Mack, Camille Allen, Sirpa Grierson, Melinda Putz, and others, Burns and MacBride set out to determine if a multigenre research project could better teach their students research writing and critical thinking skills than a traditional research-based essay. The findings of their semester-long study indicated that not only does a MGRP teach these skills, but it far surpasses a traditional essay in teaching engagement, intellectual creativity, and transferable writing skills. Burns and MacBride demonstrate two different ways to integrate a multigenre research project into the college composition classroom. [The Greatest College Football Rivalries of All Time](#) Martin Gitlin, 2014-08-14 College football is one of the most popular sports in the United States. Fans follow their favorite team with unfailing loyalty, and nowhere do the colors come out more fervently than when rivals face off. These games bring out the passion, the rituals, and even the rage of football fans across the country. Whether based on history and tradition or proximity and local pride, college rivalry games have an intensity unmatched by any other sporting event. *The Greatest College Football Rivalries of All Time: The Civil War, the Iron Bowl, and Other Memorable Matchups* showcases the best of these competitions. Martin Gitlin details game highlights, the history behind the rivalries, and how the fans, players, and coaches have impacted the matchups. The fourteen top rivalries are covered, including the always intense battles between the Ohio State Buckeyes and the Michigan Wolverines, the great in-state rivalry between the Auburn Tigers and the Alabama Crimson Tide, and the historic contests between the Army Black Knights and the Navy Midshipmen. In addition to capturing the action of the games, this book also covers the personal stories that heighten the passion and intensity of the rivalries, including pranks pulled over the years by opposing fans. With stats and series highlights detailed in each entry and featuring historical and contemporary photographs throughout its pages, *The Greatest College Football Rivalries of All Time* is a must-read for every fan of college football. **Boys Will be Boys** Myriam Miedzian, 2002 In this book, Miedzian provides a thorough investigation of the numerous factors influencing aggression and violence in American males. In addition, she also provides descriptions and proposals for interventions, social action, and solutions to break the link between masculinity and violence. The book is separated into three major parts: 1. The Problem: The acceptance of violence as a way of life; 2. Toward a Solution: Raising sons for the twenty-first century; 3. Conclusions: Beyond the masculine mystique. Throughout the book, Miedzian emphasizes that because males have a high potential for aggression and violence, every effort should be made to encourage and model for males those qualities that are counter to violence. She illustrates the large extent to which our

culture currently and historically encourages qualities and values that increase a male's propensity for violence From a review of the book by Lori A Cillo The Year's Best Fantasy and Horror ,2006 *The Routledge Handbook of Health Communication and Popular Culture* Christina S.
