## Music Festival Vs:

Music Festivals and Regional Development in Australia Chris Gibson, John Connell, 2016-04-29 Throughout the world the number of festivals has grown exponentially in the last two decades as people celebrate local and regional cultures but perhaps more importantly as local councils and other groups seek to use festivals both to promote tourism and to stimulate rural development However most studies of festivals have tended to focus almost exclusively on the cultural and symbolic aspects or on narrow modelling of economic multiplier impacts rather than examining their long term implications for rural change This book therefore has an original focus It is structured in two parts the first discusses broad issues affecting music festivals globally especially in the context of rural revitalisation The second part looks in more detail at a range of types of festivals commonly found throughout North America Europe and Australasia such as country music jazz opera and alternative music festivals The authors draw on in depth research undertaken over the past five years in a range of Australian places which traces the overall growth of festivals of various kinds examines four of the more important and distinctive music festivals and makes clear conclusions on their significance for rural and regional change Signale für die musikalische

Musical festival floats of Japan

Håkan Lundström, 2025-10-07 Based on more than thirty years fieldwork this book aims to increase the understanding of music played on elaborate wooden floats which form vital components in Japanese festivals with a religious dimension The focus is on float festivals in Aichi prefecture in central Japan but wider perspectives international as well as national also come into play Float festivals date back several centuries A good deal of modernization has taken place from the mid twentieth century onwards but historical roots and connections are still discernible and these distinctive festivals and their music remain of great significance to many communities in modern Japan
