Politics Of Basic Needs:

The Politics of Basic Needs Richard Sandbrook, 1982 *Political Philosophy* Thom Brooks, 2025-03-04 A wide ranging and up to date survey of the leading ideas and debates in political philosophy Political Philosophy The Fundamentals introduces core topics within the field by engaging students in seminal works in both contemporary philosophy and the history of political thought Requiring no previous background in the subject this clear and comprehensible textbook equips readers with the necessary context for understanding different philosophical perspectives Through eight succinct chapters Thom Brooks highlights important contributions made from political philosophers from the past and present to connect the history of political thought with ongoing debates Readers gain insights into various conceptions about the nature of freedom different ways of understanding equality longstanding debates over punishment questions concerning the value of human rights issues of global justice and severe poverty approaches to handling climate change and much more Helping readers develop informed opinions on central issues Political Philosophy The Fundamentals Discusses divergent views about the different forms and limits of freedom that philosophers have defended over time Provides a historical perspective of contemporary understandings of human rights and their origins in natural law and natural rights Illustrates the multiple ways that freedom has been understood including commonalities and differences Examines various ways of implementing equality and assessing their merits Covers influential work by John Rawls that envisions a well ordered society governed by principles of justice Featuring carefully selected further readings in each chapter Political Philosophy The Fundamentals is essential reading for undergraduate students and general readers interested in the historical development and present day debates over political ideas and institutions

Subjectivity in Political Economy David P. Levine, 2005-06-23 This book explores the way political economy understands human motivation In it the author argues that the assumptions typically made by economists regarding want and choice cannot adequately lay a foundation for answering important questions about the design of economic institutions and the appropriate use of markets This volume offers an exciting and unusual contribution to political economy offering a novel integration of the insights of political economy philosophy and psychology applying them to vital foundational issues in political economy

Need-Based Distributive Justice Stefan Traub, Bernhard Kittel, 2020-04-29 This book explores the foundations and potential of a theory of need based distributive justice supported by experimental evidence The core idea is that need based distributive justice may have some legitimacy advantages over other important principles of distribution like equality and equity and therefore involves less dispute over the distribution and redistribution of scarce resources In seven chapters eleven scholars from the fields of philosophy psychology sociology political science and economics outline the normative and positive building blocks of such a theory by critically reviewing the literature on distributive justice from their respective disciplinary perspectives They address important theoretical and practical issues concerning the rationality of needs identification at the individual level and the recognition of needs at the

societal level They also investigate whether and how the dynamics of distribution procedures that allocate resources according to the need principle leads to social stability focusing on the economic incentives that arise from need based redistribution The final chapter provides a synthesis and outlines a framework for a theory of justice based on ten hypotheses derived from the insights presented The Polish Road from Socialism: The Economics, Sociology and Politics of Transition Walter D. Connor, Piotr Ploszajski, 2019-07-26 What the contributors to this volume offer is neither a romantic version of the course of Polish history nor a jubilant account of the recovery of national independence and political choice Rather they offer a variety of tough minded analytic perspectives on what comes when the party is over not just the PSPR but the celebration marking its downfall They focus on Poland's movement toward an internationally competitive market economy a political democracy in which plural interests compete and the constitution of a civil society that both tolerates and ameliorates conflict The multidisciplinary contributors include Jan Muzjel Keith Crane Benjamin Slay Kazimierz Poznanski Jan Bossak Wojciech Bienkowski Włodzimierz Wesolowski Edmund Wnuk Lipinski Adam Sarapata Andrzej Sicinski Piotr Lukasiewicz Krzysztof Nowak David S Mason Andrzej Rychard Krzysztof Jasiewicz Jack Bielasiak Janusz Reykowski Stanislaw Gebethner Mirosława Marody Edmund Mokrzycki and Michael D Kennedy **The Political Economy of Basic Human Needs** Bruce Edward Moon, 1991 This volume reflects a new emphasis in development economics on conditions that promote the realization of human potential Moon defines development goals as attainment of basic needs and the reduction of absolute poverty He evaluates the effects of the state and political system as well as the role of the military in relation to these goals and makes a careful distinction between absolute poverty of basic needs deprivation and the relative poverty associated with income inequality Asserting that the normative case for concern with the poor is unassailable universal and compelling the author insists that the provision of basic needs may be necessary for rapid growth The volume includes a discussion of methodological premises in an appendix ISBN 0 8014 2448 8 45 00 Understanding Policy Domains their Salient Forces and Organisational Challenges Tapera O. Chirawu, 2012 Understanding Policy Domains their Salient Forces and Organisational Challenges examines the complexity of policy making processes within the context of human action arising from culture life necessities and politics It provides an understanding of human environmental and institutional behaviour and identifies the policy factors that underline the success or failure of governments and institutions This book provides policy makers practitioners and other researchers in the field with a clear understanding of the process of policy making and who is responsible for what It sets the tone for academics and policy practitioners to confront the problems and challenges that countries face as they seek to improve governance and service delivery The author provokes debate on the cause and effect of past present and future human actions bringing into play the issues of honesty transparency and political will He promotes policy as a way towards achieving social harmony in the human struggle for survival User friendly for both students and lecturers as well as for researchers government and NGO policy gurus Understanding Policy Domains their Salient

Forces and Organisational Challenges is also valuable for political parties whose members are often unaware of this important aspect of government responsibility **Transafrican Journal of History** ,1971 **Abstracts on Rural Development in the Tropics** ,1988 *An Introduction to Political Science* Mark R. Amstutz,1982 **Nigeria and the Politics of Survival as a Nation-state** E. Ike Udogu,1997 This volume addresses the struggles and strategies applied by the civilian and military administrations to resolve the issue of political instability in Nigeria It examines its political history as an entity before Britain colonized the area and the constitutional developments since 1914 when Britain amalgamated the northern and southern regions to form modern Nigeria The Politics and Empowerment of Banyarwanda Refugees in Uganda, 1959-2001 Elijah Dickens Mushemeza,2007 The Politics of Empowerment of Banyarwanda Refugees in Uganda 1959-2001 introduces empowerment discourse to the nexus between politics security and forced migration and refugees Conceptualized as a group process where people who lack their share of valued resources strive to gain greater access to and control over those resources empowerment of Banyarwanda refugees was possible through a protracted struggle The book explores how the Banyarwanda refugees achieved reasonable levels of integration in Ugandan society because of similar demographics social economic and cultural characteristics with the Ugandan population in the areas they settled Had the Ugandan state not broken down in the late 1970s and 1980s these refugees would have perhaps acquired naturalization a veritable form of empowerment In contrast although most Hutu and Tutsi refugees achieved meaningful levels of integration as some were treated badly and abused with derogatory language their leaders and some of the elites never gave up the dream of returning home The book concludes that violent conflicts emerge because of a violation of human rights and denial of access to scarce resources and Rwanda and Africa as a whole must build institutions that allow popular participation in decision making transfer of political power from one group or generation to the other and generally to address the question of democracy and good governance **American Politics** Kenneth M. Dolbeare,Murray Jacob Edelman,1977 **The Great Art of Government** Peter Josephson,2002 Moving beyond previous scholarship he gives us a Locke as much concerned with the effective functioning of government as with the roots of its moral legitimacy **BOOK JACKET**
