How to Build a Great Screenplay David Howard, 2010-04-01 *How to Build a Great Screenplay* is a definitive guide on the mechanics of screenwriting filled with examples from the author of *The Tools of Screenwriting*. Acclaimed USC screenwriting teacher David Howard has guided hundreds of students to careers in writing for film and television. Drawing on decades of practical experience and savvy, *How to Build a Great Screenplay* deconstructs the craft of screenwriting and carefully reveals how to build a good story from the ground up. Howard eschews the system offered by other books, emphasizing that a great screenplay requires dozens of unique decisions by the author. He offers in-depth considerations of characterization, story arc, plotting and subplotting, dealing with coincidence in story plotting, classical vs. revolutionary screenplay structure, tone, style, and atmosphere, the use of time on screen, the creation of drama and tension, crucial moments in storytelling. Throughout the book, Howard clarifies his lessons through examples from some of the most successful Hollywood and international script-oriented films, including *Pulp Fiction*, *American Beauty*, *Trainspotting*, *North by Northwest*, *Chinatown*, and others. The end result is what could very well become the classic text in the field, a bible for the burgeoning screenwriter. *The Set-Up* Ronald Hayman, 2024-11-01 Originally published in 1973, this book investigates the power and the pressures behind English theatre in the late 20th Century, analysing its structure and systems and the way that money and motives flow through it. On the one hand, there are the organisations: the big national companies, the West End managements, the regional repertory theatres, the fringe groups, the trade unions, the Arts Council. On the other are the individuals: actors, directors, playwrights, agents, administrators. Ronald Hayman's challenging book illuminates the conflicts and contradictions in the set-up. It is a mine of information about how theatres are run, how shows pay their way, and what happens when they don't. *Box Office*, 1957 *Development of the Global Film Industry* Qiao Li, Yanqiu Guan, Hong Lu, 2020-09-01 The global film industry has witnessed significant transformations in the past few years. Regions outside the USA have begun to prosper, while non-traditional production companies such as Netflix have assumed a larger market share, and online movies adapted from literature have continued to gain in popularity. How have these trends shaped the global film industry? This book answers this question by analyzing an increasingly globalized business through a global lens. *Development of the Global Film Industry* examines the recent history and current state of the business in all parts of the world. While many existing studies focus on the internal workings of the industry, such as production, distribution, and screening, this study takes a big picture view, encompassing the transnational integration of the cultural and entertainment industry as a whole, and pays more attention to the coordinated development of the film industry in the light of influence from literature, television, animation, games, and other sectors. This volume is a critical reference for students, scholars, and the public to help them understand the major trends facing the global film industry in today's world. *The Colonel and the King* Peter Guralnick, 2025-08-05 From the award-winning biographer of Elvis Presley, a groundbreaking dual portrait of the relationship between the iconic artist and

his legendary manager drawing on a wealth of the Colonel's never before seen correspondence to reveal that this oft reviled figure was in fact a confident friend and architect of his client's success. In early 1955 Colonel Tom Parker, manager of the number one country music star of the day, heard that an unknown teenager from Memphis had just drawn a crowd of more than eight hundred people to a Texas schoolhouse and headed south to investigate. Within days Parker was sending out telegrams and letters to promoters and booking agents. We have a new boy that is absolutely going to be one of the biggest things in the business in a very short time. His name is ELVIS PRESLEY. Later that year, after signing with RCA, the young man sent a telegram of his own: Dear Colonel, Words can never tell you how my folks and I appreciate what you did for me. I love you like a father. The close personal bond between Elvis and the Colonel has never been fully portrayed before. It was a relationship founded on mutual admiration and support. From the outset the Colonel defended Elvis fiercely and indefatigably against RCA executives, Elvis's own booking agents, and movie moguls. But in their final years together the story grew darker as the Colonel found himself unable to protect Elvis from himself or control growing problems of his own. Featuring troves of previously unpublished correspondence revelatory for both its insights and emotional depth, *The Colonel and the King* provides a unique perspective on not one but two American originals. A tale of the birth of the modern-day superstar, an invention almost entirely of Parker's making, by Peter Guralnick, the most acclaimed music writer of his generation, it presents these two misunderstood icons as they've never been seen before, with all of their brilliance, humor, and flaws on full display.

Conflicts among Hollywood studios and exhibitors have been going on for years. At their heart are questions about how films should be released, where, when, and at what speed. Both sides of this disagreement are losers: exhibitors using the law via various Consent Decrees and studios retaliating by tightly controlling output. In the Silent Era, movies were not released nearly as widely as they are now. This book tells the story of how the few became the many. It explores the contraction of the release cycle, the maximization of the marketing dollar, and the democratization of consumer access. It also offers a comprehensive list of wide releases and rebuts much of what previous scholars have found.      Motion Picture Herald, 1966
