Quest For Truth:

We Want to Believe Amy M. Donaldson, 2011-04-14 From the first episode to the latest feature film two main symbols provide the driving force for the iconic television series *The X Files* Fox Mulder's I Want to Believe poster and Dana Scully's cross necklace Mulder's poster may feature a flying saucer but the phrase I want to believe refers to more than simply the quest for the truth about aliens The search for extraterrestrial life the truth that is out there is a metaphor for the search for God The desire to believe in something greater than ourselves is part of human nature we want to believe Scully's cross represents this desire to believe as well as the internal struggle between faith and what we can see and prove *The X Files* depicts this struggle by posing questions and exploring possible answers both natural and supernatural Why would God let the innocent suffer Can God forgive even the most heinous criminal What if God is giving us signs to point the way to the truth but we're not paying attention These are some of the questions raised by *The X Files* In the spirit of the show this book uses the symbols and images presented throughout the series to pose such questions and explore some of the answers particularly in the Christian tradition With a focus on key themes of the series faith hope love and truth along the way this book journeys from the desire to believe to the message of the cross *The Eternal Building* George T. Outlook, 1897 *The Homiletic Review*, 1899 **Curriculum: Theory, Culture and the Subject Specialisms** Ruth

Ashbee, 2021-06-14 Curriculum or the substance of what is taught is the core business of schools and yet little exists in the way of a theory of curriculum for educators This book sets out the principles of curriculum theory and provides a common framework and practical strategies for the successful implementation and effective management of powerful knowledge based curriculum for all Offering powerful insights across the subject divides the book explores the key elements of curriculum design including progression sequencing substantive and disciplinary knowledge and the relationships of subjects to their sister disciplines Providing a crucial foundation for school leadership it covers curriculum in the contexts of learning organisational culture and key philosophical and moral ideas an explanation of thirteen specialist subjects with outline mapping of the knowledge an emphasis on the cultural elements needed for sustained excellence in curriculum work within schools the codification of curriculum and the multiple values of documents for curriculum thinking and execution Enabling leaders to analyse and discuss subjects beyond their specialisms this essential text will equip readers to implement real change by leading intelligently and effectively on curriculum **The Pursuit of Holiness, Etc.
