**Oriental Carpets in the Museum of Islamic Art, Berlin** Friedrich Spuhler,1987     **Whither Opportunity?** Greg J. Duncan,Richard J. Murnane,2011-09-01 As the incomes of affluent and poor families have diverged over the past three decades so too has the educational performance of their children But how exactly do the forces of rising inequality affect the educational attainment and life chances of low income children In *Whither Opportunity* a distinguished team of economists sociologists and experts in social and education policy examines the corrosive effects of unequal family resources disadvantaged neighborhoods insecure labor markets and worsening school conditions on K 12 education This groundbreaking book illuminates the ways rising inequality is undermining one of the most important goals of public education the ability of schools to provide children with an equal chance at academic and economic success The most ambitious study of educational inequality to date *Whither Opportunity* analyzes how social and economic conditions surrounding schools affect school performance and children s educational achievement The book shows that from earliest

childhood parental investments in children's learning affect reading math and other attainments later in life Contributor Meredith Phillip finds that between birth and age six wealthier children will have spent as many as 1 300 more hours than poor children on child enrichment activities such as music lessons travel and summer camp Greg Duncan George Farkas and Katherine Magnuson demonstrate that a child from a poor family is two to four times as likely as a child from an affluent family to have classmates with low skills and behavior problems attributes which have a negative effect on the learning of their fellow students As a result of such disparities contributor Sean Reardon finds that the gap between rich and poor children's math and reading achievement scores is now much larger than it was fifty years ago And such income based gaps persist across the school years as Martha Bailey and Sue Dynarski document in their chapter on the growing income based gap in college completion Whither Opportunity also reveals the profound impact of environmental factors on children's educational progress and schools functioning Elizabeth Ananat Anna Gassman Pines and Christina Gibson Davis show that local job losses such as those caused by plant closings can lower the test scores of students with low socioeconomic status even students whose parents have not lost their jobs They find that community wide stress is most likely the culprit Analyzing the math achievement of elementary school children Stephen Raudenbush Marshall Jean and Emily Art find that students learn less if they attend schools with high student turnover during the school year a common occurrence in poor schools And David Kirk and Robert Sampson show that teacher commitment parental involvement and student achievement in schools in high crime neighborhoods all tend to be low For generations of Americans public education provided the springboard to upward mobility This pioneering volume casts a stark light on the ways rising inequality may now be compromising schools functioning and with it the promise of equal opportunity in America     *Kirkus Reviews* ,1983 Adult books are categorized by genre i e fiction mystery science fiction nonfiction Along with bibliographic information the expected date of publication and the names of literary agents for individual titles are provided Starred reviews serve several functions In the adult section they mark potential bestsellers major promotions book club selections and just very good books in the children's section they denote books of very high quality The unsigned reviews manage to be discerning and sometimes quite critical     **Price's Carpet and Rug News** ,1919     **Better Homes and Gardens** ,1989     **Carpet Review** ,1958     **Farm Journal and Country Gentleman** ,1970     **The China Weekly Review** ,1924     *Millard's Review of the Far East* ,1924 Vol 34 includes Special tariff conference issue Nov 6 1925     **Direct Marketing** ,1974
