King Lonely Lion Looks at Letters Aileen M. Gidney, 2013 King Lonely Lion Looks at Letters with its African based theme has not been written just to bring enjoyment to children and parents as a bedtime story and to assist educators and home schooling mums in the learning process It has also been written to be a way to encourage children to increase their vocabulary by searching the pictures in the story for other animals reptiles and insects that begin with the same letter of each story page It is extremely important to understand that King Lonely Lion Looks at Letters has a dual purpose It has not been written in the traditional alphabetical format of a b c but in a wonderful and adventure filled way that also allows a child to learn and practice the strokes required in writing the letters of the alphabet when this book is combined with the Phonics for Africa activity book As the author of this book I would encourage all parents educators and home schooling mums to remember that the teaching and learning process of our little ones should always be fun packed with enjoyment and carried out with a loving heart I can only hope that you and your children get as much excitement and enjoyment out of King Lonely Lion Looks at Letters as I did in writing it Aileen M Gidney *Tiger Bone & Rhino Horn* Richard Ellis, 2013-02-22 In parts of Korea and China moon bears black but for the crescent shaped patch of white on their chests are captured in the wild and brought to bear farms where they are imprisoned in squeeze cages and a steel catheter is inserted into their gall bladders The dripping bile is collected as a cure for ailments ranging from an upset stomach to skin burns The bear may live as long as fifteen years in this state Rhinos are being illegally poached for their horns as are tigers for their bones thought to improve virility Booming economies and growing wealth in parts of Asia are increasing demand for these precious medicinals Already endangered species are being sacrificed for temporary treatments for nausea and erectile dysfunction Richard Ellis one of the world s foremost experts in wildlife extinction brings his alarm to the pages of Tiger Bone Rhino Horn in the hope that

through an exposure of this drug trade something can be done to save the animals most direly threatened Trade in animal parts for traditional Chinese medicine is a leading cause of species endangerment in Asia and poaching is increasing at an alarming rate Most of traditional Chinese medicine relies on herbs and other plants and is not a cause for concern Ellis illuminates those aspects of traditional medicine but as wildlife habitats are shrinking for the hunted large species the situation is becoming ever more critical One hundred years ago there were probably 100 000 tigers in India South China Sumatra Bali Java and the Russian Far East The South Chinese Caspian Balinese and Javan species are extinct There are now fewer than 5 000 tigers in all of India and the numbers are dropping fast There are five species of rhinoceros three in Asia and two in Africa and all have been hunted to near extinction so their horns can be ground into powder not for aphrodisiacs as commonly thought but for ailments ranging from arthritis to depression In 1930 there were 80 000 black rhinos in Africa Now there are fewer than 2 500 Tigers bears and rhinos are not the only animals pursued for the sake of alleviating human ills the list includes musk deer sharks saiga antelope seahorses porcupines monkeys beavers and sea lions but the dwindling numbers of those rare species call us to attention Ellis tells us what has been done successfully and contemplates what can and must be done to save these animals or sadly our children will witness the extinction of tigers rhinos and moon bears in their lifetime

Somewhere East of Eden Michael McKeown, 2017-11-07 From the author of *Half Way Down* an African Moon comes an evocative account of random journeys undertaken in Africa over the last thirty years Written at a time when the natural world everywhere is being heedlessly plundered and exploited as never before these recollections impassioned comic ironic and critical by turn are a reminder that in everything but multi national corporate cupidity the damage may well be irreparable Whether drifting in a fishing boat among lurking pods of unpredictable hippos down the Zambezi tracing the demise of the hapless Dodo in Mauritius trekking for lowland gorillas in the rainforests of south east Nigeria in the company of a wryly erudite local parks ranger or pondering the Stone Age mind set of wealthy trophy hunters the author s exhilaration for wildlife and nature glows through the prism of a gradually darkening lens The current state of our natural world may look bleak but giving up on it as he reminds us is not an option
