African Development Perspectives: A Holistic Reflection T A Ngwana, 2024-01-05 Africa remains a continent that is yet to achieve its full potentials despite an abundance of resources and a rich cultural pedigree There have been various attempts to dissect the impediments to the continent's progress in its march towards development and true independence Consequently this book moves away from mere identification of challenges to proffering solutions The ideas put forward about African development in this book draw from a multiplicity of backgrounds They are also offered through the prism of the lived experiences of contributors who are keen on engendering an African solution that weaves global dynamics into Africa's cultural context and did not shy away from identifying themselves as global citizens from Africa The compelling read is a critical appraisal of germane issues in Africa's quest for development which speaks truth to both the powerful and the powerless within and beyond Africa on why prioritising Africa's development is as pressing as the Global climate catastrophe
