Queens Gambit For The Attacking Player:

The Queen's Gambit for the Attacking Player Graham Burgess, Steffen Pedersen, 2021-01-29 This book is a state of the art survey of all branches of the world's most popular gambit from the viewpoint of the player who wants to attack with the white pieces. Many of the world's top young players such as Kramnik, Anand and Shirov have invested enormous amounts of time and analysis into making lines of the Slav, Semi Slav and QGA into reliable, ambitious weapons for Black. This book concentrates on the lines which are at the cutting edge of White's counter efforts and provides a selection of aggressive repertoires against Black's older defences including the Orthodox, Tarrasch and Semi Tarrasch. No player who has read this book need be in any doubt how to meet Black's sharp approaches be they modern dynamic counter attacks or old romantic gambits.

Play 1 d4 Richard Palliser, 2030-01-01 A comprehensive study book for players who would like to cultivate a reliable yet initiative seeking opening repertoire as White based on the opening moves 1 d4 followed by 2 c4. Specific main lines and side variations are given to combat Black's possible choices of the King's, Queen's and Bogoljubow Indian defences as well as the modern Benoni and Benko Gambit. The author also recommends promising methods against the various Black defences to the Queen's Gambit as well as a number of offbeat lines. A practical opening guide for competitive players who prefer to build their games on solid foundations rather than indulge in risky speculation.

My First Chess Opening Repertoire for Black Vincent Moret, 2017-09-28 Every chess player needs to decide which openings he or she is going to play. But where do you start? The risk of drowning in the turbulent sea of chess opening theory is only too real for beginning amateurs. Often your goals and ambitions will be misguided. If you are trying to win in 20 moves copy what's in fashion among top GM's or memorize variations you are wasting your time. Most likely you will never get to play your preparation and end up aimlessly switching from one opening to the other. After the success of his volume for White experienced French chess trainer Vincent Moret now provides a complete ready to go chess opening repertoire for Black. It consists of a sound set of lines that do not outdate rapidly, do not require memorization and are easy to digest for beginners and post beginners. To show the typical plans and the underlying ideas in the various lines of his repertoire Moret not only selected games of Grandmasters. He also uses games of young improving players to highlight the errors they tend to make.
