**Determining the College Football Playoff: Weighted Wins, A Better Approach** Ray D. Theis, Mark G. Terwilliger, 2021-09-21 In this book we explore the history of college football and in particular the mythical college championship from 1869 to the present day For several years different media outlets took it upon themselves to declare a national championship which led to nothing short of confusion In one year four different teams were named champion This chaotic situation and accompanying controversy ultimately led to the creation of the Bowl Championship Series or BCS Initially the BCS selection was based on a formula that incorporated several polls and computer models However the proprietary nature of the computer models and the complexity of the mathematics used to combine the data sources to arrive

at the final selection did very little to quiet the controversy This led to the creation of a selection committee to choose the four best teams to compete in a four team playoff Again controversy has ensued with many questioning the politics and nebulous capricious nature of the criteria We have created an alternate model which we have dubbed the weighted wins system that defines a simple unbiased and consistent mechanism for evaluating and comparing the records of the teams in the NCAA s Bowl Subdivision We have compared the results of the weighted wins model against forty years of actual game results and found that it generates very similar outcomes The primary difference is that it completely removes politics from the selection process and offers a clear path to the playoffs for all members of the Bowl Subdivision

*Lists of College Football Team Records* Source Wikipedia,2013-09 Please note that the content of this book primarily consists of articles available from Wikipedia or other free sources online Pages 30 Chapters List of 100 point games in college football List of 500 point seasons in college football List of most consecutive games scoring in NCAA football List of NCAA Division I FCS playoff appearances by team List of NCAA Division I football teams with 800 wins List of NCAA football bowl records List of NCAA football teams by wins List of undefeated NCAA Division I football teams Longest NCAA Division I football winning streaks Most consecutive wins over one opponent NCAA football Most weeks ranked number 1 NCAA football NCAA Division I FBS football win loss records NCAA Division I FCS FBS football win loss records NCAA Division I FCS football win loss records NCAA football overtime records Excerpt This is a list of undefeated NCAA Division I football teams which describes all teams that finished a college football season in the NCAA s Division I or historic equivalent without any losses NCAA Division I Football Bowl Subdivision FBS is currently the highest division of play in college football However this nomenclature and these categories of divisional play have only existed since 2006 and 1978 respectively Prior to the formation of the NCAA in 1906 there was no differentiation between the level of play from one college to another and thus all intercollegiate teams can be thought of as having played in the same division Likewise even after the formation of the NCAA there was no differentiation into divisions until 1956 when play was separated in the upper University division and lower Collegiate division In 1973 a three division reorganization occurred placing teams into NCAA Division I highest Division II or Division III lowest In 1978 Division I was further subdivided into Division I A highest and Division I AA In 2006 these subdivisions were renamed Division I

**Ranking NCAA Sports Teams with Linear Algebra** Luke C. Ingram,2007 **The Ultimate Guide to College Football** James P. Quirk,2004 The complete records of all one hundred and seventeen Division 1 A collegiate football teams are compiled in a definitive reference that includes the teams locations the results of bowl games and final rankings of teams for each season Original **College Football Rankings and Market Efficiency** Ray C. Fair,2007 The results in this paper show that various college football ranking systems have useful independent information for predicting the outcomes of games Optimal weights for the systems are estimated and the use of these weights produces a predictive system that is more accurate than any of the individual systems The results also provide a fairly precise estimate of the size of the home field advantage These results may be of interest to the Bowl Championship Series in choosing which teams to play in the national championship game The results also show however that none of the systems including the optimal combination contains any useful information that is not in the final Las Vegas point spread It is argued in the paper that this is a fairly strong test of the efficiency of the college football betting market **Comparing the Predictive Information Content of College Football Rankings** Ray C. Fair,John F. Oster,Yale University. Cowles Foundation for Research in Economics,2002 **Hail Mary** Todd McGee,2024-03-17 HAIL MARY details a plan to save college football from the chaos caused by the NCAA s inability to manage what has become a multi billion dollar industry The author proposes a 64 team Super League with four 16 team conferences a 16 team playoff with all spots determined by results on the field and players being paid a salary comparable to what their peers in other minor league sports make The author s proposal includes Equal distribution of television revenue among Power League schools A salary scale for players to pay them a similar salary to what minor leaguers in other major professional sports leagues A relegation process that would bring at least one new team into the Super League each year possibly more A 14 week regular season with a 13 game schedule that includes matchups designed to enhance parity Revisions to the transfer portal to bring it under control Conferences with teams aligned by geography to restore sanity to conference alignment A 16 team postseason playoff with all spots being won by results on the field After the national outcry over Florida State s snub last year the College Football Playoff accelerated its plans for a 12 team playoff But even that will be fraught with peril as only five of the twelve spots will be won on the field the SEC Big Ten Big 12 and ACC champs will be guaranteed a spot as will the highest ranked conference champ from any other conference The other seven spots will be determined by the same committee that picked an Alabama team that needed a miracle to beat Auburn over an undefeated

FSU team Heading into the 2024 season 67 teams are in one of the four designated Super Conferences Big Ten Big Twelve ACC and SEC This doesn't include Notre Dame or the two schools kicked to the curb by the Pac 12 Oregon State and Washington State A handful of non Power Conference schools Boise State East Carolina Fresno State Houston Memphis and San Diego State can make a legitimate claim to being one of the best 64 programs in the nation The author chooses which 64 teams are most deserving of inclusion and assigns them into conferences based on geography an effort to restore some sanity to college football Conference realignment has stretched common sense to its breaking point West Virginia is in the same conference as BYU 2 000 miles and two time zones away That's a mere day trip compared to the 3 120 mile sojourn Boston College fans will make to Palo Alto for the matchup with Stanford whenever those two ACC rivals meet for the first time The author proposes a salary scale for players that pays them a similar wage to what other minor leaguers make in baseball hockey and basketball The proposal also includes a relegation process to demote underperforming teams and reward teams who are excelling in the old FBS division which will become a separate tier and determine its own national champion each year The FBS champion will receive automatic promotion to the Super League each year University presidents and athletics administrators are incapable of managing what has become a billion dollar per year industry It's time for the upper echelon of college football teams to stop being the tail that wags the dog divorce themselves from the NCAA form their own league and let results on the field determine the college football champion
