

Fall Clearance Calculation Chart

To determine the required Fall Clearance add the appropriate factors together, this will give you the safe Required Distance (RD) below the anchorage connection point for work which is to be carried out where there is any risk of falling.

$$RD = LL + DP + HH + C$$

1. Add 1 ft. to DD for free-fall over 6 ft. (1.8 m) up to 12 ft. (3.6 m) or for person over 310 lbs. (140.6 kg) up to 420 lbs. (190.5 m) with 6 ft. (1.8 m) max. free-fall for ANSI & OSHA compliant lanyards.
2. Add 1.7 ft. (0.52 m) to DD for Canadian CSA Z259.11-05 (E6) compliant lanyard.
3. D-ring slide and harness stretch factors are built into wC.
4. DD shown in e.g. assumes maximum allowable amounts.
5. See User Instruction Manual for additional information.

The New World of Economics Richard B. McKenzie, Gordon Tullock, 2012-05-16 The New World of Economics 6th edition by Richard McKenzie and Gordon Tullock represents a revival of a classic text that when it was first published changed substantially the way economics would be taught at the introductory and advanced levels of economics for all time In a very real sense many contemporary general audience economics books that seek to apply the economic way of thinking to an

unbounded array of social issues have grown out of the disciplinary tradition established by earlier editions of The New World of Economics This new edition of The New World will expose new generations of economics students to how McKenzie and Tullock have applied in a lucid manner a relatively small number of economic concepts and principles to a cluster of topics that have been in the book from its first release and to a larger number of topics that are new to this edition with the focus of the new topics on showing students how economic thinking can be applied to business decision making This edition continues the book's tradition of taking contrarian stances on important economic issues Economics professors have long reported that The New World is a rare book in that students will read it without being required to do so *Ceramics Monthly*, 2001-06
