[The Ultimate Guide to Accelerate Weight Loss, Reset Your Metabolism, Increase Your Energy, and Detox Your Body](#) Willie Gooding, 2021-03-19

Gaining weight as we age is a given. Whether it's from lack of exercise, hormone shifts, or illness, our metabolism slows, and it becomes more difficult to keep weight off. Intermittent fasting is one way we can bypass this problem by giving ourselves mini breaks from digestion, which is the most energy-intensive activity in our bodies. These breaks help the body use up its stores of fat for fuel instead of relying on food consumption to power us through the day. In my book *Intermittent Fasting for Women over 50*, I discuss how fasting for women over 50 can be a solution to the issues with weight loss and health. I discuss all the benefits of fasting for women over 50, including reduced risk of disease, improved metabolism, so we burn more fat, increased energy levels, which make it easier to work out and eat healthier, reduced cortisol levels, which improves sleep quality, and makes you feel more alert during the day. By reading this book, you will master: 1. How to boost your metabolism by using Intermittent Fasting for Women Over 50. 2. How to burn fat without exercise. 3. How to feel energized and lose weight at the same time. *Kick Diabetes Essentials: The Diet and Lifestyle Guide* Brenda Davis, 2019-09-01
