Stem Kits 2025:

Perspective and Strategies on Newage Education and Creative Learning Shibani Khanra Jha, Meetha V Shenoy, Tamali Bhattacharyya, Padmanabhan Seshaiyer, 2024-10-08 This book presents the proceedings of the International Conference on Best Innovative Teaching Strategies ICOBITS at BITS Pilani on Feb 9 11 2023 It brings together global academicians researchers and industry experts to delve into innovative teaching learning practices Meticulously selected and reviewed by professionals the proceedings offer cross cutting perspectives and strategies in education and creative learning It is organized into four parts and covers Innovative Pedagogical Practices for Technology Enhanced Learning Technology Society and Industry in Higher Education STEM Education and Cultural Studies Gender Studies and Sustainability in Higher Education It provides insights into assessment tools for effectively evaluating the efficiency of teaching methods Part one explores ICT digital classrooms metaverse based teaching gamification and AI ML based practices Part two delves into the humanistic approach in technical education social networking as an educational tool and outcome based assessment needs Part three addresses future educators requirements through multidisciplinary collaboration in STEM education Part four discusses gender equity structured social inclusion and cultural skills in teaching learning practices This book is a valuable resource for academicians researchers policymakers administrators technocrats and developers actively engaged in education technology across disciplines such as Engineering Sciences Management Humanities and Social Sciences

Communicating Science to the Public Leo Tan Wee Hin, R. Subramaniam, 2014-07-24 This book explores effective approaches for communicating science to the public in developing countries Offering multiple perspectives on this important topic it features 17 chapters that represent the efforts of 23 authors from eight countries Australia Bangladesh India Ireland New Zealand USA Singapore and South Africa Inside readers will find a diversity of approaches to communicate science to the public The book also highlights some of the challenges that science communicators science policy makers science teachers university academics in the sciences and even entrepreneurs may face in their attempts to boost science literacy levels in their countries In addition it shares several best practices from the developed world that may help readers create communication initiatives that can lead to increased engagement with science in communities in the Asia Pacific region and beyond Given the pervasive influence of science and technology in today's society their impact will only increase in the years to come as the world becomes more globalized and the economies of countries become more inter linked This book will be a useful source of reference for developing countries looking to tap into the potential of science for nation building and effectively engage their communities to better understand science and technology Supported by the Pacific Science Association Hawaii

Cross-disciplinary STEM Learning for Asian Primary Students Winnie Wing Mui So, Zhi Hong Wan, Tian Luo, 2023-11-27 Given the importance of student learning in the various types and integration of STEM education this book provides a landscape of cross disciplinary STEM learning in Asian primary schools and a systematic overview of

design practices and outcomes of STEM learning implementation Science Technology Engineering and Mathematics STEM has continued to attract attention worldwide and there have been calls for the promotion of STEM education in primary schools to nurture students to meet the needs of societies in terms of innovation and technology development Since STEM is complex in nature and is related to various disciplines the effort of a single discipline may not be as effective as cross disciplinary efforts This edited volume involving an Asian team of authors examines how cross disciplinary STEM learning can be designed for students to achieve viable outcomes and what opportunities and challenges have been offered to the next generation to equip them with the necessary skills knowledge and ways of thinking as well as attitudes and values for lifelong learning A resourceful text for students researchers and practitioners interested in the rich development of STEM education and practical methods for a variety of learning approaches from elementary to secondary education has been provided
