economic liberalization of the 27 post communist countries of Eurasia with some guarded optimism Belarus Tajikistan Turkmenistan and Uzbekistan are clearly unabashed authoritarian regimes with only sporadic ventures toward political accountability and very limited effort to liberalize economically Azerbaijan Kazakhstan Kyrgyzstan and Russia have made more substantial moves particularly on the economic side but the regimes seem to be undergoing political retrenchment Hungary Poland the Czech Republic Slovenia and the three Baltic States clearly have competitive democracies with effective political institutions and processes and functioning market economies However as some of the contributors suggest some very serious challenges and unmet expectations remain It is clear that the dual transition of democratization and economic liberalization has been a challenge for all the regimes that have seriously attempted it *ICSSR Journal of Abstracts and Reviews* Indian Council of Social Science Research,2000 Slavic Review ,1997 **Good Governance in Central and Eastern Europe** Herman Willem Hoen,2001 The implementation of a democratic order embedded in a market economy environment has proved immensely difficult Furthermore this process is subject to tremendous variety within Central and Eastern Europe Ten years after the collapse of communism it was apparent that only Poland and Slovenia surpassed their 1989 levels of GDP This book scrutinises the arrangements to enforce good governance in this area both by means of external help and domestic political leadership From the popular assumption that transformation is a collective good it follows that the problem of free riding has to be faced Consequently there is a danger that transformation may never be completed This book empirically tests the relationship between economic performance and good governance focusing upon voluntary coercion as a means to prevent free riding behaviour The author examines the role of international organisations and discusses elite formation as an important element of good governance something often ignored in the economic analysis of economic performance Scholars and researchers of political and economic transformation in Central and Eastern Europe as well as those from the fields of political economy international relations and political science will find this book enlightening Hungary on the Road to the European Union Laszlo Andor,2000-04-30 In November 1997 Hungarians voted in favour of membership in NATO primarily as a step towards membership in the European Union This is an examination of the changes in Hungarian social political and economic life after the collapse of communism in Central Europe
