## **Political Economy Of Stalinism Evidence From The Soviet Secret Archives:**

The Political Economy of Stalinism Paul R. Gregory, 2004 This book uses the formerly secret Soviet state and Communist Party archives to describe the creation and operations of the Soviet administrative command system It concludes that the system failed not because of the jockey i e Stalin and later leaders but because of the horse the economic system Although Stalin was the system s prime architect the system was managed by thousands of Stalins in a nested dictatorship The core values of the Bolshevik Party dictated the choice of the administrative command system and the system dictated the political victory of a Stalin like figure This study pinpoints the reasons for the failure of the system poor planning unreliable supplies the preferential treatment of indigenous enterprises the lack of knowledge of planners etc but also focuses on the basic principal agent conflict between planners and producers which created a sixty year reform stalemate **Aufstieg zur Energiemacht** Felix Rehschuh, 2018-10-01 Russland z hlt seit Jahrzehnten zu den f hrenden Produzenten Verbrauchern und Exporteuren von Erd l und anderen fossilen Energietr gern Besonders f r die brennstoffarmen europ ischen Volkswirtschaften ist der stliche Nachbar deshalb von essentieller Bedeutung Doch obwohl schon das Zarenreich als gewichtiger Erd lexporteur auftrat und die Bolschewiki dieses Erbe bereitwillig antraten fristete der Energietr ger in der Sowjetunion lange Zeit ein Nischendasein Erst die Entwicklungen der sp ten 1940er Jahre gaben die entscheidenden Impulse den Weg ins Erd lzeitalter endg ltig zu beschreiten Dieses Buch thematisiert aus der Perspektive der Moskauer Machtzentralen die wenig beleuchtete aber entscheidende Phase sowjetischer Energiepolitik zwischen 1938 und 1953 Im Kontext innenpolitischer und internationaler Entwicklungen fragt es nach den Hintergr nden des sowjetischen Aufstiegs zur globalen Energiemacht **The Russian Revolution and Stalinism** Graeme Gill, Roger D. Markwick, 2021-04-25 This book focuses upon significant aspects of Stalinism as a system in the USSR It sheds new light on established questions and addresses issues that have never before been raised in the study of Stalinism Stalinism constitutes one of the most striking and contentious phenomena of the twentieth century It not only transformed the Soviet Union into a major military industrial power but through both the Second World War and the ensuing Cold War and its effect on the political Left throughout much of the world it also transformed much of that world This collection of papers by an international cast of authors investigates a variety of major aspects of Stalinism Significant new questions like the role of private enterprise and violence in state making as well as some of the more established questions like the number of Soviet citizens who died in the Second World War whether agricultural collectivisation was genocidal nationality policy the politics of executive power and the Leningrad affair are addressed here in innovative and stimulating ways The chapters in this book were originally published as a special issue of Europe Asia Studies **The Palgrave Handbook of Comparative Economics** Elodie Douarin, Oleh Havrylyshyn, 2021-02-13 This book aims to define comparative economics and to illustrate the breadth and depth of its contribution It starts with an historiography of the field arguing for a continued legacy of comparative economic systems

which compared socialism and capitalism a field which some argued should have been replaced by institutional economics after the fall of the Berlin Wall The process of transition to market capitalism is reviewed and itself exemplifies a new combination of comparative analysis with a focus on institutional development Going beyond chapters broadening the application of comparative analysis and applying it to new issues and approaches including the role and definition of institutions subjective wellbeing inequality populism demography and novel methodologies Overall comparative economics has evolved in the past 30 years and remains a powerful approach for analyzing important issues Russia Since 1980 Steven Rosefielde, Stefan Hedlund, 2009 Russia since 1980 recounts the epochal political economic and social changes that destroyed the Soviet Union ushering in a perplexing new order Two decades after Mikhail Gorbachev initiated his regime wrecking radical reforms Russia has reemerged as a superpower It has survived a hyperdepression modernized restored private property and business adopted a liberal democratic persona and asserted claims to global leadership Many in the West perceive these developments as proof of a better globalized tomorrow while others foresee a new cold war Globalizers contend that Russia is speedily democratizing marketizing and humanizing creating a regime based on the rule of law and respect for civil rights Opponents counterclaim that Russia before and during the Soviet period was similarly misrepresented and insist that Medvedev's Russia is just another variation of an authoritarian Muscovite model that has prevailed for more than five centuries The cases for both positions are explored while chronicling events since 1980 and a verdict is rendered in favor of Muscovite continuity Russia will continue challenging the West until it breaks with its cultural legacy The New Palgrave Dictionary of Economics, 2016-05-18 The award winning The New Palgrave Dictionary of Economics 2nd edition is now available as a dynamic online resource Consisting of over 1 900 articles written by leading figures in the field including Nobel prize winners this is the definitive scholarly reference work for a new generation of economists Regularly updated This product is a subscription based product **Verbrannte Erde** Jörg Baberowski, 2022-11-10 Die Bolschewiki wollten eine neue Gesellschaft erschaffen und tr umten vom neuen Menschen Doch reicht es aus auf das bolschewistische Projekt der Modernisierung zu verweisen um die stalinistischen Gewaltexzesse zu erklären War Stalins Terrorherrschaft eine notwendige Folge der kommunistischen Ideologie Das bolschewistische Projekt so die These des Buches bot eine Rechtfertigung für den Massenmord Aber es schrieb ihn nicht vor Es war Stalin ein Psychopath und passionierter Gewalttäter der den Traum vom neuen Menschen im Blut der Millionen erstickte Er war Urheber und Regisseur des Terrors der erst mit seinem Tod aufhörte Er errichtete eine Ordnung des Misstrauens und der Furcht in der jedermann jederzeit zum Opfer werden konnte Wer in dieser Weise den inneren Kitt einer Gesellschaft zerstört der hinterlässt auch in den Seelen der Menschen verbrannte Erde Lasst die ihr eingeht jede Hoffnung fahren steht bei Dantes Hölle Dantes Satz hat auch an den Grenzpfählen der Sowjetunion stehen können Zeitschrift für Geschichtswissenschaft, 2005 Mitteilungsblatt des Instituts für Soziale Bewegungen, 2007 Archiv für Sozialgeschichte, 1961 **Korruption in Ost und West** Carola Söller, 2008

Norman Schofield,2009 One theme that has emerged from the recent literature on political economy concerns the transition to democracy why would dominant elites give up oligarchic power This book addresses the fundamental question of democratic stability and the collapse of tyranny by considering a formal model of democracy and tyranny The formal model is used to study elections in developed polities such as the United States the United Kingdom the Netherlands Canada and Israel as well as complex developing polities such as Turkey The key idea is that activist groups may offer resources to political candidates if they in turn adjust their polities in favor of the interest group In polities that use a first past the post electoral system such as the US the bargaining between interest groups and candidates creates a tendency for activist groups to coalesce in polities such as Israel and the Netherlands where the electoral system is very proportional there may be little tendency for activist coalescence A further feature of the model is that candidates or political leaders like Barack Obama with high intrinsic charisma or valence will be attracted to the electoral center while less charismatic leaders will move to the electoral periphery This aspect of the model is used to compare the position taking and exercise of power of authoritarian leaders in Portugal Argentina and the Soviet Union The final chapter of the book suggests that the chaos that may be induced by climate change and rapid population growth can only be addressed by concerted action directed by a charismatic leader of the Atlantic democracies      **Journal of Economic Literature** ,2005      Behind the Façade of Stalin's

Command Economy Paul R. Gregory,2001 Although the Stalinist command economy is supposedly a thing of the past it continues to plague Russia s transition to a market economy and more important it continues to have considerable emotional appeal as a substitute for a market economy      **After Tamerlane** John Darwin,2008-02-05 The author of The End of the

British Empire traces the rise and fall of large scale empires in the centuries after the death of the emperor Tamerlane in 1405 in an account that challenges conventional beliefs about the rise of the western world and contends that European ascendancy may be a transitory event      **Slavic Review** ,2005      **Internationale Bibliographie der Rezensionen**
