Hence it is essential for all engineers to achieve the capability of reading, preparing and interpreting drawings. The aim of the book is to provide a well built foundation of engineering drawing to the beginners and to provide a scope to have a brushing up facility for the practicing engineers. Keeping these two basic objectives in view, a step by step approach has been adopted, starting from drawing instruments, sheets, scales, curves etc. The guidelines as laid in different codes published by Bureau of Indian Standard are mentioned and followed. Involved association of the authors with the subject for a pretty long time in various capacities like teacher, examiner, paper setter and head examiner has enriched the book in terms of content and its approach of dealing. Sufficient number of worked out examples and multiple choice questions are provided to have a holistic view of the subject. **Elements of Surveying and Levelling** Charles Davies,1870 **The Quarterly Journal of Pure and Applied Mathematics** James Joseph Sylvester,1868 **The sheet-metal worker's guide** William John E.
