Policing and Its Context, 1750-1870 Clive Emsley, 1983 **Rereading German History (Routledge Revivals)** Richard J. Evans, 2015-06-05 In *Rereading German History* first published in 1997 Richard J. Evans draws together his seminal review essays on the political economic cultural and social history of Germany through war and reunification. This book provides a study of how and why historians mainly German American British and French have provided a series of differing and often conflicting readings of the German past. It also presents a reconsideration of German history in the light of the recent decline of the German Democratic Republic collapse of the Berlin Wall and the reunification of Germany. *Rereading German History* re-examines major controversies in modern German history such as the debate over Germany's special path to modernity in the nineteenth and twentieth centuries and the discussions in the 1980s on the uniqueness or otherwise of Auschwitz. Evans also analyses the arguments over the nature of German national identity. The book offers trenchant and important analytical insights into the history of Germany in the last two centuries and is ideal reading material for students of modern history and German studies.

Thresholds of Accusation George Pavlich, 2023-09-28 This critical socio legal history probes pretrial accusations through which colonial criminal law forged social orders for settler colonialism across western Canada focusing on Alberta 1874 1884. Following military intelligence a Northwest Mounted Police force was established to compel Dominion law. That force began by deploying accusatory theatres to receive information about crimes arrest suspects and decide via preliminary examination who to send to trial. George Pavlich draws on exemplary performances of colonial accusation to show how police officers and justices of the peace translated local social lore into criminal law. These performances reflected intersecting powers of sovereignty disciplinarily and biopolitics they held accused individuals legally culpable for crimes and obscured social upheavals that settlers brought. Reflecting on colonial legacies within today's vast and unequal criminalizing institutions this book proposes that we seek new forms of accusation and legality learning from Indigenous laws that tackle individual and collective responsibilities for societal disquiet.
