Policing Europe Bill Heberton, Terry Thomas, 1995-03-20 Developments in European police co operation have become sharply focused in the last few years Policing Europe critically examines the historical development of forms of co operation and their traditional justifications terrorism illegal immigration drug trafficking and other cross border crime It is argued that a full understanding of the new policing of Europe needs to take account of the linking of such justifications with the more diffuse debate around removal of border controls and free movement of people The book suggests that a new European policework is emerging and examines the implications of this phenomenon

Policing European Metropolises Elke Devroe, Adam Edwards, Paul Ponsaers, 2017-02-03 Understanding the politics of security in city regions is increasingly important for the study of contemporary policing This book argues that national and international governing arrangements are being outflanked by various transnational threats including the cross border terrorism of the attacks on Paris in 2015 and Brussels in 2016 trafficking in people narcotics and armaments cybercrime the deregulation of global financial services and environmental crime Metropolises are the focal

points of the transnational networks through which policing problems are exported and imported across national borders as they provide much of the demand for illicit markets and are the principal engines generating other policing challenges including political protest and civil unrest This edited collection examines whether and how governing arrangements rooted in older systems of national sovereignty are adapting to these transnational challenges and considers problems of and for policing in city regions in the European Union and its single market Bringing together experts from across the continent Policing European Metropolises develops a sociology of urban policing in Europe and a unique methodology for comparing the experiences of different metropolises in the same country This book will be of value to police researchers in Europe and abroad as well as postgraduate students with an interest in policing and urban policy The Politics of EU Police Cooperation John D. Occhipinti, 2003 Will the European Union soon have a policing agency similar to the US Federal Bureau of Investigation John Occhipinti traces the evolution of the European Police Office Europol bringing to life themes key to the study of European integration such as the tension between supranationalism and intergovernmentalism concerns over the democratic deficit in the EU and the impact of enlargement Policing European Metropolises Elke Devroe, Adam Edwards, Paul Ponsaers, 2017-02-03 Understanding the politics of security in city regions is increasingly important for the study of contemporary policing This book argues that national and international governing arrangements are being outflanked by various transnational threats including the cross border terrorism of the attacks on Paris in 2015 and Brussels in 2016 trafficking in people narcotics and armaments cybercrime the deregulation of global financial services and environmental crime Metropolises are the focal points of the transnational networks through which policing problems are exported and imported across national borders as they provide much of the demand for illicit markets and are the principal engines generating other policing challenges including political protest and civil unrest This edited collection examines whether and how governing arrangements rooted in older systems of national sovereignty are adapting to these transnational challenges and considers problems of and for policing in city regions in the European Union and its single market Bringing together experts from across the continent Policing European Metropolises develops a sociology of urban policing in Europe and a unique methodology for comparing the experiences of different metropolises in the same country This book will be of value to police researchers in Europe and abroad as well as postgraduate students with an interest in policing and urban policy *Leading Policing in Europe* Caless, Bryn, Tong, Steve, 2017-01-18 In this unique book the authors present for the first time information from over a hundred strategic police leaders in 22 countries about how they are selected for high office how they are held to account and what their views are on current and future challenges in policing **Handbook on Policing in Central and Eastern Europe** Gorazd Meško, Charles B. Police and Public Order in Europe John Roach,Jürgen Thomanek,2023-03-31 Originally published in 1985 *Police and Public Order in Europe* examines the development of the police in Western Europe and considers how police functions have changed over time Each contributor looks at the experience of one country while having regard to the practices of the other countries The role of the police in maintaining public order had become increasingly important in the early 1980s The activities of terrorists from both Left and Right in Italy Spain and West Germany and the IRA in Great Britain had long been a focus of attention However in many ways a more disturbing phenomenon was the increase in the general level of popular unrest which had produced considerable rioting and looting in British cities as well as often violent confrontation between the police and an increasing range of protesters in other European countries These events received wide media coverage at the time and the issue of public order was one of growing concern for governments the police and the public The role of the police in Western Europe was now firmly political

Meiboom,2023-09-14 International policing is a neglected area of interest As the world gets smaller due to political economic social and technological developments an evident need arises to understand the implications of inter national policing On both national and international levels policing is undergoing drastic changes as it continuously adapts itself to changes in

society and new forms of crime This collection of papers addresses two central themes community policing and organisational crime and brings together insights and experiences on crime law enforcement and cooperation from both the academic and the professional policing world Moreover the various contributions derive from different countries both the East and the West and different institutions such as the Council of Europe and the United Nations

Policing Western Europe Clive Emsley, Barbara Weinberger, 1991 European Police Forces and Law Enforcement in the First World War Jonas Campion, Laurent López, Guillaume Payen, 2019-11-08 This book offers a global history of civilian military and gendarmerie style policing around the First World War Whilst many aspects of the Great War have been revisited in light of the centenary and in spite of the recent growth of modern policing history the role and fate of police forces in the conflict has been largely forgotten Yet the war affected all European and extra European police forces Despite their diversity all were confronted with transnational factors and forms of disorder and suffered generally from mass conscription During the conflict societies and states were faced with a crisis situation of unprecedented magnitude with mass mechanised killing on the battle field and starvation occupation destruction and in some cases even revolution on the home front Based on a wide geographical and chronological scope from the late nineteenth century to the interwar years this collection of essays explores the policing of European belligerent countries alongside their empires and neutral countries The book s approach crosses traditional boundaries between neutral and belligerent nations centres and peripheries and frontline and rear areas It focuses on the involvement and wartime transformations of these law enforcement forces thus highlighting underlying changes in police organisation identity and practices across this period
