Policy And Change In Thatchers Britain Policy And Planning And Critical Theory:

Policy and Change in Thatcher's Britain Paul J. Cloke, 1992 *Policy and Change in Thatcher's Britain* presents an integrated analysis of the changing policy impacts of the Thatcher decade using various different aspects of critical social theory. The study first parallels the directions taken by successive Thatcher governments with the paths taken by critical social theorists in the 1980s. This analysis shows not only that critical social theory can inform the interpretation of Thatcherism but also that Thatcherism made such demands on social theory as to force changes in the theoretical agenda. More detail follows in an explanation and analysis of the employment of policy making and planning by the state apparatus. The stress here is on the necessity of looking beyond the immediate policy arena in search of how and why policy changes occur. Further essays illuminate the effects of policy changes in particular systematic or spatial areas. The concluding section comments more generally on economic and social change under Thatcher both stressing the unevenness of development with respective emphasis on both spatial and gender divisions of labour.

Gender, Planning, and the Policy Process Jo Little, 1994 Planning has a central essential legitimacy in addressing social goals. Despite the ideal position of planning is being able to initiate, encourage, strengthen the links between the theory/practice of feminism in its relationship with gender, planning can act against women's interests, thus reinforce the unequal distribution of powers between the sexes not only within the planning discipline but also in the assumptions/practice in our use of the built environment. This book provides a feminist interpretation of contemporary urban planning. It outlines the gender inequalities which characterize many areas of mainstream planning as well as the assumptions/practices surrounding our use of the built environment. The book incorporates detailed theoretical discussion on the underlying basis/form of women's subordination, applies this discussion to the development/implementation of planning policies. Attention focuses on both the establishment/operation of formal women's initiatives within local government on the promotion of specific policies aimed at meeting women's needs within key areas of planning. Habitat International, December 1994.

Policy and Change in Thatcher's Britain Paul J. Cloke, 1992-01-01 This is a thought provoking book; it provides an excellent way into key debates about social/political change in the 1980s, offers a sound foundation for the debates of the 1990s. Allan Cochrane, *Intl Jnl Urban Regional Research* 1993 excellent collection of essays compiled by Cloke, gathering together an impressive set of commentators to analyse a range of policy arenas. A. Leyshon, *Environment Planning B: Planning Design* 1993. *Regional Development in the 1990s* Ron Martin, Peter Townroe, 2013-10-18 This book documents the changing nature and challenge of regional development in Britain and Ireland in the final decade of this century. In the first half of this book, region by region profiles review the experience of the eighties and reflect on the present climate, assessing

problems and opportunities The second half provides 25 commentaries on changes influencing the development of regions from questions of industry technology and employment to the impact of national policy and 1992 and the prospects and capacity for regional policy and development

The Global Region David Sadler,1992 The Global Region investigates change in the organization and location of production during the 1980s by relating processes of global restructuring in the coal steel and automobile industries to UK state policies and the interaction between different rounds of investment in the north east of England In that region decline in the old economic base of coal and steel was underpinned by government policies which also supported a major investment by Nissan in Western Europe s first automobile assembly plant In the process dramatic changes were made to prevailing conceptions about the nature of work

British Conservatism and the Legal Regulation of Intimate Relationships Andrew Gilbert,2018-08-23 What does conservatism as a body of political thought say about the legal regulation of intimate relationships and to what extent has this thought influenced the Conservative Party s approach to family law With this question as its focus this book explores the relationship between family law conservatism and the Conservative Party since the 1980s Taking a politico and socio legal perspective the discussion draws on an expansive

reading of Hansard as well as recently released archival material The study first sets out the political tradition of conservatism relying largely on the work of Edmund Burke before going on to analyse the discourse around the development of four crucial statutes in the field namely the Matrimonial and Family Proceedings Act 1984 the Family Law Act 1996 the Civil Partnership Act 2004 and the Marriage Same Sex Couples Act 2013 This work offers the first extended synthesis of family law conservative political thought and Conservative Party politics and as such provides significant new insight into how family law is made Runner up of the 2020 PSA Conservatism Studies Book Prize **New Statesman Society** ,1991

The Power of Apartheid Jennifer Robinson,1996 Although there have been momentous changes in South Africa s recent political history the spatial remnants of apartheid and the planning ideas which underpinned it remain to confound post apartheid city planners This book draws on detailed case study material from one South African town Port Elizabeth to illustrate the relationship between the state power economy and spatial practices The racialised character of the urban order which emerged under apartheid meant that together with the routine capacities of the state to govern the domination of African people and their exclusion from political power were also effectively secured by means of the spatial organisation of the city Aspects of the strong relationship between modernity and racism are teased out in this study of the South African city as are the general links between spatial form and state power This book demands attention from everyone concerned with the spatial politics of urban development *Environment and Planning* ,1993 International interdisciplinary journal discussing the relations between Society and Space Space is broadly conceived from landscapes of the body to global geographies from cyberspace to old growth forests as metaphorical and material as theoretical construct and empirical fact Covers both practical politics and the abstractions of social theory Divided Britain Ray Hudson,Allan M.

Williams,1995-02-21 Revised to evaluate the economic social and political changes that have taken place in the UK since Margaret Thatcher s departure as Prime Minister this text includes two new chapters which place the Thatcherite and post Thatcherite periods in their historical contexts **Urban Regeneration in the UK** Andrew Tallon,2013-06-07 Striking transformations are taking place in the urban landscape The regeneration of urban areas in the UK and around the world has become an increasingly important issue amongst governments and populations since the global economic downturn This textbook provides an accessible and critical synthesis of urban regeneration in the UK analyzing key policies approaches issues and debates It places the historical and contemporary regeneration agenda in context The second edition has been extensively revised and updated to incorporate advances in literature policy and case study examples as well as giving greater discussion to the New Labour period of urban policy and the urban agenda and regeneration policies of the Conservative Liberal Democrat Coalition government elected in 2010 The book is divided into five sections with Section I establishing the conceptual and political framework for urban regeneration in the UK Section II traces policies that have been adopted by central government to influence the social economic and physical development of cities including early town

Environment & Planning ,1998 **Catalogue of Periodicals and Continuations** ,1994 **Bibliographie Internationale de Science Politique** ,1992 **Forthcoming Books** Rose Arny,1992 *Selling Places* Gerard Kearns,Chris Philo,1993 Places particularly cities often strive to sell themselves to encourage inward investment In doing so the managers of these places seek to manipulate the interwoven cultural and historical attributes of their localities to create attractive images ambiances and lifestyles This is a contentious process involving a fierce battle between alternative cultural sensibilities and historical visions Much of the existing literature on place marketing either provides a practical handbook of how to do it or an economic analysis of this new facet of urban capitalism *Selling Places* focuses more explicitly on the cultural historical context of what is being sold Thus it enriches the economic picture whilst drawing upon newer arguments about the complex politics of cultural and historical representation
