Policy Analysis And Deductive Reasoning:

Policy Analysis and Deductive Reasoning Gordon Tullock, Richard E. Wagner, 1985-01-01 Contributors to this volume present methodological foundations for deductive modeling in policy analysis applications to particular areas of public policy and applications to the institutional framework within which particular policies are chosen Originally published in 1978 by D C Heath and Company Co published with the Policy Studies Organization

Handbook of Public Policy Evaluation Stuart S. Nagel, 2001-12-13 Handbook of Public Policy Evaluation is the only book of its kind to present aspects of public policy evaluation that relate to economic technology social political international and legal problems Rather than looking at specific narrowly focused programs this book emphasizes broad based evaluation theory study and application providing a rich variety of exceptional insights and ideas Designed to facilitate integration and coherence key features in this volume include Systematic evaluation measuring the policy alternatives available for achieving goals Win win evaluation processing policy alternatives that can enable conservatives liberals and other major viewpoints to all come out ahead of their best initial expectations simultaneously Policy evaluation offering methods examples studies professionalism perspectives concepts trends substance theory applications dispute resolution interdisciplinary interaction and bibliographies and applications The book targets the need for improvement in the methods processes and substance of public policy and opens the gate of public policy to be more effective efficient and equitable Policymakers administrators analysts and practitioners alike will find the Handbook a necessary resource of alternative public policies that are placed in context with a direct course to positive results

Public Policy Evaluation Stuart S. Nagel, 2018-08-13 First published in 1998 this volume examines how super optimum decisions involve finding alternatives to controversies whereby Conservatives Liberals or other major groups can all come out ahead of their best initial expectations simultaneously This book is organised in terms of concepts methods causes process substance and the policy studies profession Concepts clarify that policy evaluation traditionally involves 1 Goals to be achieved 2 Alternatives available for achieving them 3 Relations between goals and alternatives 4 Drawing a conclusion as to the best alternative in light of the goals alternatives and relations and 5 Analysing how the conclusion would change if there were changes in the goals alternatives or relations Super optimizing also involves five related steps but with the following improvements 1 Goals are designed as conservative liberal or neutral 2 Alternatives get the same designations 3 Relations are simplified to indicate which alternatives are relatively high or low on each goal 4 The conclusion involves arriving at an alternative that does better on Goal A than Alternative A and simultaneously better on Goal B than Alternative B and 5 The fifth step involves analysing the super optimum or win win alternative in terms of its feasibility as to the economic technological psychological political administrative and legal matters
