**Political Dynamiting** Frank H. Jonas, 1970      **Political Hell-Raiser** Marc C. Johnson, 2019-03-21

Burton K Wheeler 1882 1975 may have been the most powerful politician Montana ever produced and he was one of the most influential and controversial members of the United States Senate during three of the most eventful decades in American history A New Deal Democrat and lifelong opponent of concentrated power whether economic military or executive he consistently acted with a righteous personal and political independence that has all but disappeared from the public sphere Political Hell Raiser is the first book to tell the full story of Wheeler a genuine maverick whose successes and failures were woven into the political fabric of twentieth century America Wheeler came of political age amid antiwar and labor unrest in Butte Montana during World War I As a crusading United States attorney he battled Montana s powerful economic interests championed farmers and miners and won election to the U S Senate in 1922 There he made his name as one of the Montana scandalmongers uncovering corruption in the Harding and Coolidge administrations Drawing on extensive research and new archival sources Marc C Johnson follows Wheeler from his early backing of Franklin D Roosevelt and ardent support of the New Deal to his forceful opposition to Roosevelt s plan to expand the Supreme Court and in a move widely viewed as political suicide his emergence as the most prominent spokesman against U S involvement in World War II right up to three days before Pearl Harbor Johnson provides the most thorough telling of Wheeler s entire career including all its accomplishments and contradictions as well as the political storms that the senator both encouraged and endured The book convincingly establishes the place and importance of this principled hell raiser in American political history

*Political Communication Ethics* Robert E. Denton Jr., 2000-05-30 This essay collection examines ethical concerns related to the traditional areas of political communication including campaigns media discourse and advertising as well as new technologies including the Internet In total the collection provides one of the few volumes to examine political ethics from an academic perspective rather than from a moralistic or rule orientation Bruce Gronbeck provides an assessment of presidential campaigns arguing that ethical judgments of citizens are based on candidates actions and motives character and competence Ronald Lee explores the ethics of campaign discourse and he charts the relationship between presidential candidates projection of civic virtue and the political arrangements that dictate the course of the campaign itself Steven Goldzwig and Patricia Sullivan examine what happens to discourse when the divide between the haves and have nots translates into a local community disconnected from virtual politics The nature types and impact of the growing use of hate speech in contemporary politics is explored by Rita Whillock while Robert Denton investigates television as an instrument of governing and its impact on the nature of democracy Gary Woodward looks at the ethics of political journalism and Lynda Lee Kaid analyzes the ethical issues raised by political advertising in all forms Clifford Jones looks at the impact of campaign finance rules on campaign communication strategy Gary Selnow explores the ethics of politics on the Internet and Robert Denton concludes by

examining the relationship between constitutional authority and public morality An important text for students as well as scholars investigating contemporary American politics *Pre-Nineteen Sixty Developments in the Bill of Rights Area* Paul L. Murphy, 2014-04-04 Volume 2 in the 20 volume series reproducing over 300 key articles which explore the 200 year history of the rights of American citizens This title contains 23 essays on development of the Bill of Rights from a range of academic authors features some work found in previously published journals Such a collection will prove insightful for historians students of American history and those with a vested interest in historic American law *A Political Creed* Gabriel Manigault, 1884 *Insurgent Democracy* Michael J. Lansing, 2015-11-06 In 1915 western farmers mounted one of the most significant challenges to party politics America has seen the Nonpartisan League which sought to empower citizens and restrain corporate influence Before its collapse in the 1920s the League counted over 250 000 paying members spread to thirteen states and two Canadian provinces controlled North Dakota s state government and birthed new farmer labor alliances Yet today it is all but forgotten neglected even by scholars Michael J Lansing aims to change that *Insurgent Democracy* offers a new look at the Nonpartisan League and a new way to understand its rise and fall in the United States and Canada Lansing argues that rather than a spasm of populist rage that inevitably burned itself out the story of the League is in fact an instructive example of how popular movements can create lasting change Depicting the League as a transnational response to economic inequity Lansing not only resurrects its story of citizen activism but also allows us to see its potential to inform contemporary movements *Dirty Politics* Bruce L. Felknor, 1975 *Political Campaigns* Robert Agranoff, 1972 **The Saturday Review of Politics, Literature, Science and Art**, 1881 *Advocating Weapons, War, and Terrorism* Ian E. J. Hill, 2018-08-28 Techno s Paradox a frequent theme in science fiction is the commonplace belief that technology has both the potential to annihilate humanity and to preserve it *Advocating Weapons War and Terrorism* looks at how this paradox applies to some of the most dangerous of technologies population bombs dynamite bombs chemical weapons nuclear weapons and improvised explosive devices Hill s study analyzes the rhetoric used to promote such weapons in the nineteenth and twentieth centuries By examining Thomas R Malthus s *Essay on the Principle of Population* the courtroom address of accused Haymarket bomber August Spies the army textbook *Chemical Warfare* by Major General Amos A Fries and Clarence J West the life and letters of Manhattan Project physicist Leo Szilard and the writings of Ted Unabomber Kaczynski Hill shows how contemporary societies are equipped with abundant rhetorical means to describe and debate the extreme capacities of weapons to both destroy and protect The book takes a middle way approach between language and materialism that combines traditional rhetorical criticism of texts with analyses of the persuasive force of weapons themselves as objects irrespective of human intervention *Advocating Weapons War and Terrorism* is the first study of its kind revealing how the combination of weapons and rhetoric facilitated the magnitude of killing in the nineteenth and twentieth centuries and illuminating how humanity understands and acts upon its propensity for violence This book will be

invaluable for scholars of rhetoric scholars of science and technology and the study of warfare      **Political Campaign**
