Tok Trending Near Me:

Musicking TikTok Juan Bermúdez, 2024-12-12 This ethnographic work about TikTok's musicking in a global Austrian context complements and builds upon ethnomusicological assumptions, theories, and methods for the study of musical practices in digital spaces. An overview of elements that make up TikTok's interface as well as the technical performative possibilities that it allows, this book introduces a general categorization of existing performance types and how TikTokers appropriate the platform to make their music. It illustrates how some TikTokers became aware of and began using TikTok and it reviews some of the different strategies TikTokers apply to learn how to use the application and successfully develop their performances. Bermúdez explores how performers move from being ordinary users to becoming TikTokers, developing and performing an identity he calls TikTok Persona. Moreover, he discusses how some TikTok practices can and have occurred across multiple interconnected platforms and he examines how localities are articulated and negotiated in these contexts. Bermúdez argues for an understanding of musicking as a multimedia practice that different actors create and experience individually in everyday synchronous and asynchronous physical and digital situations. The so-called TikTokers create a sense of identity and community through their performances. This study suggests that a digital performance can be, aside from a representation of reality, an integral part of it, serving as a fundamental space for constructing and performing identity.

TikTok Broadway Trevor Boffone, 2024 TikTok Broadway: Musical Theatre Fandom in the Digital Age explores how TikTok has revolutionized musical theatre fandom and democratized musical theatre fan cultures and spaces. The book argues that TikTok has created a new canon of musical theatre thanks to the way virality works on the app, expanding musical theatre into a purely digital realm that spills into other non-digital aspects of U.S. popular culture.

Trend , 1954 **The De Gruyter Handbook of Automated Futures** Vaike Fors, Martin Berg, Meike Brodersen, 2024-09-23 How does automation affect us our environment and our imaginations What actions should we take in response to automation Beyond grand narratives and technology driven visions of the future what more can automation offer With these questions in mind The De Gruyter Handbook of Automated Futures provides a framework for thinking about and implementing automation differently It consolidates automated futures as an inter and transdisciplinary research field embedding the imaginaries interactions and impacts of automation technology within their social historical societal cultural and political contexts Promoting a critical yet constructive and engaging agenda the handbook invites readers to collaborate with rather than resist automation agendas It does so by pushing the agenda for

social science humanities and design beyond merely assessing and evaluating existing technologies Instead the handbook demonstrates how the humanities and social sciences are essential to the design and governance of sustainable sociotechnical systems Methodologically the handbook is underpinned by a pedagogical approach to staging co learning and co creation of automated futures with rather than simply for people In this way the handbook encourages readers to explore new and alternative modes of research fostering a deeper engagement with the evolving landscape of automation
