Liberal Interventionism and Democracy Promotion Dursun Peksen, 2012-03-16 Despite growing interest in democracy promotion the nature and extent of external factors impact on democratic transitions to date remains understudied The question of what works under what circumstances is still intensely contested among academics policy makers and practitioners Liberal Interventionism and Democracy Promotion edited by Dursun Peksen contributes to the study of international democracy promotion exploring the extent to which various forms of foreign interventions and policy actors that advocate political liberalization affect the spread of democracy The contributors in this study specifically address issues highly relevant to the academic research and policymaking including the evaluation of the efficacy of four major tools economic sanctions foreign aid external armed interventions and soft power that are often used to advance political liberalization in authoritarian regimes The book also assesses the performance of four major non state actors the International Monetary Fund the United Nations the European Union and transnational human rights organizations that have become increasingly influential in advocating the spread of civil liberties and political rights Liberal Interventionism and Democracy Promotion s comprehensive assessment of the efficacy of major policy instruments and actors that advocate political liberalization offers a greater understanding of what works best and when in the practice of democracy promotion This collection is an essential contribution to the study of democracy promotion and international relations Demographics and the Demand for Higher Education Nathan D. Grawe, 2018-01-01 The decisions we make in the next five years are critical in determining whether colleges thrive or flounder 2017 National Student Clearinghouse Research Center Award for Outstanding AACRAO SEM Research Presentation Higher education faces a looming demographic storm Decades long patterns in fertility migration and immigration persistently nudge the country toward the Hispanic Southwest As a result the Northeast and Midwest traditional higher education strongholds expect to lose 5 percent of their college aged populations between now and the mid 2020s Furthermore and in response to the Great Recession child bearing has plummeted In 2026 when the front edge of this birth dearth reaches college campuses the number of college aged students will drop almost 15 percent in just 5 years In Demographics and the Demand for Higher Education Nathan D Grawe has developed the Higher Education Demand Index HEDI which relies on data from the 2002 Education Longitudinal Study ELS to estimate the probability of college going using basic demographic variables Analyzing demand forecasts by institution type and rank while disaggregating by demographic groups Grawe provides separate forecasts for two year colleges elite institutions and everything in between The future demand for college attendance he argues depends critically on institution type While many schools face painful contractions for example demand for elite schools is expected to grow by more than 15 percent in future years Essential for administrators and trustees who are responsible for recruitment admissions student support tenure practices facilities construction and strategic planning this book is a practical guide for navigating coming enrollment
