Jocelyn Turner,2023-01-12 In her final year of teaching Jocelyn Turner spent over one fifth of each week administering  
mandatory tests and quizzes She spent the remaining time preparing students to take those specific exams regardless of the  
background knowledge and preparedness of individual students While she was testing she could not teach Teachers were  
expected to present the same Common Core based grade specific material to all their students at the same time whether Jake  
was reading at a first grade level or Taylor at a ninth grade level It was a rare and lucky child who fit the profile of the year s  
onslaught of tests Since No Child Left Behind US schools have been burying students in tests and then drawing often  
misguided conclusions when sometimes the only conclusion anyone ought to draw is that student X obviously spent hours  
staring at a set of questions he or she did not understand and maybe could not even read We have been told that US  
education is in crisis Ms Turner agrees In *Fighting the White Knight* she argues that government mandates created and are  
now perpetuating this crisis depriving children of remedial learning instruction time and personal attention *Fighting the*  
*White Knight* also looks at the 1 6 trillion student debt crisis a consequence of today s single minded college bound pipeline  
vocabulary deficits left to fester due to narrowly targeted curricula and the sneaky gutting of elective vocational technical

Riisman,2020-11-24 How haunted by the idea that their suburban homes were under siege the second generation of  
suburban residents expanded spatial control and cultural authority through a strategy of productive victimization The  
explosive growth of American suburbs following World War II promised not only a new place to live but a new way of life one  
away from the crime and crowds of the city Yet by the 1970s the expected security of suburban life gave way to a sense of  
endangerment Perceived and sometimes material threats from burglars kidnappers mallrats toxic waste and even the occult  
challenged assumptions about safe streets pristine parks and the sanctity of the home itself In *Neighborhood of Fear* Kyle  
Riisman examines how suburbanites responded to this crisis by attempting to take control of the landscape and reaffirm  
their cultural authority An increasing sense of criminal and environmental threats Riisman explains coincided with the rise  
of cable television VCRs Dungeons Dragons and video games rendering the suburban household susceptible to moral  
corruption and physical danger Terrified in almost equal measure by heavy metal music the Love Canal disaster and the

supposed kidnapping epidemic implied by the abduction of Adam Walsh residents installed alarm systems patrolled neighborhoods built gated communities cried Not in my backyard and set strict boundaries on behavior within their homes Riismandel explains how this movement toward self protection reaffirmed the primacy of suburban family values and expanded their parochial power while further marginalizing cities and communities of color a process that facilitated and was facilitated by the politics of the Reagan revolution and New Right A novel look at how Americans imagined traversed and regulated suburban space in the last quarter of the twentieth century Neighborhood of Fear shows how the preferences of the suburban middle class became central to the cultural values of the nation and fueled the continued growth of suburban political power
