The Best from Fantasy and Science Fiction Robert Park Mills,1964 **Hands-On APIs for AI and Data Science**

Ryan Day,2025-03-04 Are you ready to grow your skills in AI and data science A great place to start is learning to build and use APIs in real world data and AI projects API skills have become essential for AI and data science success because they are used in a variety of ways in these fields With this practical book data scientists and software developers will gain hands on experience developing and using APIs with the Python programming language and popular frameworks like FastAPI and StreamLit As you complete the chapters in the book you ll be creating portfolio projects that teach you how to Design APIs that data scientists and AIs love Develop APIs using Python and FastAPI Deploy APIs using multiple cloud providers Create data science projects such as visualizations and models using APIs as a data source Access APIs using generative AI and LLMs *SF, the Year's Greatest Science Fiction and Fantasy* Judith Merril,1964 Good Charts, Updated and Expanded

Scott Berinato,2023-08-29 The ultimate guide to data visualization and information design for business Making good charts is a must have skill for managers today The vast amount of data that drives business isn t useful if you can t communicate the valuable ideas contained in that data the threats the opportunities the hidden trends the future possibilities But many think that data visualization is too difficult a specialist skill that s either the province of data scientists and complex software packages or the domain of professional designers and their visual creativity Not so Anyone can learn to produce quality dataviz and more broadly clear and effective information design Good Charts will show you how to do it In this updated and expanded edition dataviz expert Scott Berinato provides all you need for turning those ordinary charts kicked out of a spreadsheet program into extraordinary visuals that captivate and persuade your audience and for transforming presentations that seem like a mishmash of charts and bullet points into clear effective persuasive storytelling experiences Good Charts shows how anyone who invests a little time getting better at visual communication can create an outsized impact both in their career and in their organization You will learn A framework for getting to better charts in just a few minutes Design techniques that immediately make your visuals clearer and more persuasive The building blocks of storytelling with your data How to build teams to bring visual communication skills into your organization and culture This new edition of Good Charts not only provides new visuals and updated concepts but adds an entirely new chapter on building teams around the visualization part of a data science operation and creating workflows to integrate visualization into everything you do Graphics that merely present information won t cut it anymore Make Good Charts your go to resource for turning plain uninspiring charts and presentations into smart effective visualizations and stories that powerfully convey ideas
