Man Down Matt Rudd,2020-09-10 The most honest most revealing and funniest exploration of male mental health I have ever read Adam Kay Matt Rudd may have written the most important book in a generation Idle Society On the surface men today don t have much to complain about At work they still get paid more than women for doing the same jobs At home they still shirk most of the unpaid labour Putting the bins out does not count Beneath the surface it s a different story An alarming number of men end up anxious exhausted depressed and very reluctant to admit they are Even if they do everything that s expected of them in work life and fatherhood genuine happiness is still elusive By midlife their levels of stress are higher and their levels of wellbeing are lower and work life balance turns out to be just a cruel illusion The evidence is clear and ironic the system set up by men for men doesn t work for men either It is making none of us happy In Man Down Matt Rudd takes the long view on this perplexing paradox Drawing on stories from his own life and the varied lives of the other men he has interviewed he goes back to the beginning to consider what makes the modern man how the seeds of midlife misery are sown in the school playground and cultivated through adolescence and into adulthood By turns compassionate and provocative Man Down asks the important question is midlife unhappiness inevitable Spoiler alert it isn t

interaction with technology has changed their relationship with people places jobs and other stabilizing structures and created a new way of life that is at odds with the American Dream of past generations Digital natives are hacking the American Dream Young people brought up with the Internet smartphones and social media are quickly rendering old habits values behaviors and norms a distant memory creating the greatest generation gap in history In this eye opening book digital sociologist Julie M Albright looks at the many ways in which younger people facilitated by technology are coming untethered from traditional aspirations and ideals and asks What are the effects of being disconnected from traditional stabilizing social structures like churches marriage political parties and long term employment What does it mean to be human when one s ties to people places jobs and societal institutions are weakened or broken displaced by digital hyper connectivity Albright sees both positives and negatives On the one hand mobile connectivity has given digital nomads the unprecedented opportunity to work or live anywhere But new threats to well being are emerging including increased isolation anxiety and loneliness decreased physical exercise ephemeral relationships fragmented attention spans and detachment from the calm of nature In this time of rapid global technologically driven change this book offers fresh insights into the unintended societal and psychological implications of lives exclusively lived in a digital world *The Age of Surveillance Capitalism* Shoshana Zuboff,2019-01-31 THE TOP 10 SUNDAY TIMES BESTSELLER A NEW YORK TIMES NOTABLE BOOK OF THE YEAR ONE OF BARACK OBAMA S TOP BOOKS OF THE YEAR Shortlisted for The Orwell Prize 2020 Shortlisted for the FT Business Book of the Year Award 2019 Easily the most important book to be published this century I find it hard to take any young activist seriously who hasn t at least familiarised themselves with Zuboff s central ideas Zadie Smith The Guardian The challenges to humanity posed by the digital future the first detailed examination of the unprecedented form of power called surveillance capitalism and the quest by powerful corporations to predict and control us The heady optimism of the Internet s early days is gone Technologies that were meant to liberate us have deepened inequality and stoked divisions Tech companies gather our information online and sell it to the highest bidder whether government or retailer Profits now depend not only on predicting our behaviour but modifying it too How will this fusion of capitalism and the digital shape our values and define our future Shoshana Zuboff shows that we are at a crossroads We still have the power to decide what kind of world we want to live in and what we decide now will shape the rest of the century Our choices allow technology to enrich the few and impoverish the many or harness it and distribute its benefits The Age of Surveillance Capitalism is a deeply reasoned examination of the threat of unprecedented power free from democratic oversight As it explores this new capitalism s impact on society politics business and technology it exposes the struggles that will decide both the next chapter of capitalism and the meaning of information civilization Most critically it shows how we can protect ourselves and our communities and ensure we are the masters of the digital rather than its slaves **Meyer Brothers Druggist** ,1896
