children's energy and self-initiated discoveries to inspire school art that comes from the child's imagination. The foundation of this teaching approach is the belief that the essential goal of art teaching is to inspire children to behave like artists that art comes from within themselves and not from the art teacher. Play and Creativity in Art Teaching offers plans for the study of children's play and for discovering creative art teaching as a way to bring play into the art room. While it does not offer a teaching formula or a single set of techniques to be followed, it demystifies art and shows how teachers can help children find art in familiar and ordinary places accessible to everyone. This book also speaks to parents and the important roles they can play in supporting school art programs and nourishing the creativity of their children. *Amy Butler's Little Stitches for Little Ones* Amy Butler, 2014-04-15 In this illustrated collection the fabric designer shares twenty charming contemporary projects for the nursery and beyond.
