periods of political turmoil and finally culminated in a dictatorship under Napoleon. Conceived by Taine with the aim of understanding the France of his day, his work achieved originality in its use of a long perspective to analyze the causes of the French Revolution. In particular, Taine denounced the artificiality of the revolution's political constructions, the excessively abstract and rational spirit of Robespierre, for example, which in his mind violently contradicted the natural and slow growth of the institutions of a State. For him, the force of history is such that it is illusory to want to change a society. Thus, following the defeat of Sedan and the Commune, Taine accuses the French Revolution of being the matrix of all evils which brought France into a cycle of decadence. It is in particular the abstraction of the philosophy of the Enlightenment which is rejected.

Inside the California Food Revolution Joyce Goldstein, 2013-09-06 In this authoritative and immensely readable insider's account, celebrated cookbook author and former chef Joyce Goldstein traces the development of California cuisine from its formative years in the 1970s to 2000, when farm-to-table foraging and fusion cooking had become part of the national vocabulary. Interviews with almost two hundred chefs, purveyors, artisans, winemakers, and food writers bring to life an approach to cooking grounded in passion, bold innovation, and a dedication to flavor first. Goldstein explains how the counterculture movement in the West gave rise to a restaurant culture characterized by open kitchens, women in leadership positions, and a surprising number of chefs and artisanal food producers who lacked formal training. The new cuisine challenged the conventional kitchen hierarchy and French dominance in fine dining, leading to a more egalitarian and informal food scene. In weaving Goldstein's views on California food culture with profiles of those who played a part in its development, from Alice Waters to Bill Niman to Wolfgang Puck, *Inside the California Food Revolution* demonstrates that while fresh produce and locally sourced ingredients are iconic in California, what transforms these elements into a unique cuisine is a distinctly Western culture of openness, creativity, and collaboration. Engagingly written and full of captivating anecdotes, this book shows how the inspirations that emerged in California went on to transform the experience of eating throughout the United States and the world.

Rouse, 2014-02 A highly original tale of a man given a second chance at life with the guidance of a talking chicken. A bump on the head sends Jackson Fitzroy, known as Flanker, into a temporary amnesia. But all is not lost. As the owner of a chicken broiler house, he now has the companionship and assistance of MAC, a talking chicken, the most ancient spokeschicken. MAC, who has the uncanny ability to not only advise Flanker but also read his mind, carefully helps him piece together the details of his life. As his attachment to MAC and the others grows, Flanker learns more about the tragedies he had been running from before he hit his head, and he begins to understand how he can save himself, his marriage, and his future. Told in a sardonic style, the well-paced story has flashes of comedy with surprising turns of insight. **Rocky Fork** Mary Hartwell
