Infertility around the Globe Marcia Inhorn, Frank van Balen, 2002-05-30 This exceptional collection of essays breaks new ground by examining the global impact of infertility as a major reproductive health issue one that has profoundly affected the lives of countless women and men Based on original research by seventeen internationally acclaimed social scientists it is the first book to investigate the use of reproductive technologies in non Western countries Provocative and incisive it is the most substantial work to date on the subject of

infertility With infertility as the lens through which a wide range of social issues is explored the contributors address a far reaching array of topics why infertility has been neglected in population studies how the deeply gendered nature of infertility sets the blame squarely on women s shoulders how infertility and its treatment transform family dynamics and relationships and the distribution of medical and marital power The chapters present informed and sophisticated investigations into cultural perceptions of infertility in numerous countries including China India the nations of sub Saharan Africa Vietnam Costa Rica Egypt Israel the United States and the nations of Europe Poised to become the quintessential reference on infertility from an international social science perspective Infertility around the Globe makes a powerful argument that involuntary childlessness is a complex phenomenon that has far reaching significance worldwide Beyond Bodies Todd Sanders,2008-01-01 Beyond Bodies examines the Ihanzu sensibilities about gender through a fine grained ethnography of rainmaking rites **Anthropologischer Anzeiger** ,2004 **Local Babies, Global Science** Marcia C.
