Plundering Paradise The Struggle For The Environment In The Philippines:

Plundering Paradise Robin Broad, John Cavanagh, 2023-11-15 This gripping portrait of environmental politics chronicles the devastating destruction of the Philippine countryside and reveals how ordinary men and women are fighting back. Traveling through a land of lush rainforests the authors have recorded the experiences of the people whose livelihoods are disappearing along with their country's natural resources. The result is an inspiring informative account of how peasants, fishers and other laborers have united to halt the plunder and to improve their lives. These people do not debate global warming they know that their very lives depend on the land and oceans so they block logging trucks protest open pit mining and replant trees. In a country where nearly two thirds of the children are impoverished the reclaiming of natural resources is offering young people hope for a future. **Plundering Paradise** is essential reading for anyone interested in development the global environment and political life in the Third World. This gripping portrait of environmental politics chronicles the devastating destruction of the Philippine countryside and reveals how ordinary men and women are fighting back. Traveling through a land of lush rainforests the authors have recorded the exp

Nongovernmental Organizations in Environmental Struggles Raymond L. Bryant, 2008-10-01 Why are nongovernmental organizations NGOs so successful in today's world? How do they empower themselves? This insightful book provides important new perspectives on the strategic thinking of NGOs the way they identify themselves and how they behave. Raymond L. Bryant develops a novel theoretical perspective around the concept of moral capital and assesses that concept through in depth case studies of NGOs in the Philippines. The book's focus is on perceptions of NGOs as moral and altruistic and how such perceptions can translate into social power. Bryant examines the ambiguous qualities of NGO strategizing the ways in which the quest for moral capital is bedeviled by the need to compromise with political and economic elites and the possibilities for NGOs to achieve political goals as moral leaders.

Asia's Environmental Movements Alvin Y. So, Lily Xiao Hong Lee, Lee F. Yok-Shiu, 2017-07-12 Adopting a comparative perspective this book traces the social political economic and cultural conditions under which environmental movements have emerged and assesses the transformative capacities of these movements.

Relevance of Environment Narottam Gaan, 2005 This book attempts at cosmic whole approach challenging the established international relation theories based upon a Newtonian and Cartesian world view from an ecological perspective. The realist liberal critical and post modern theories have been critically examined in their materialist premises with much of the inputs from the ecological insight eastern philosophy and the new paradigm thinking in the field of science.

Asia's Environmental Movements in Comparative Perspective Alvin Y. So, Lily Xiao Hong Lee, 2020-10-07 Exploring one of the most dynamic and contested regions of the world this series includes works on political economic cultural and social changes in modern and contemporary Asia and the Pacific.

The Political Economy of the Environment James K. Boyce, 2002-01-01

Professor Boyce's work is an excellent example of how ecological economics can be done in an objective evidence based

approach that can put issues on the agenda in a manner where they will be taken seriously by other scholars This is a well written and provocative book that should encourage further research on all these important issues David I Stern International Journal of Social Economics This succinct and sometimes provocative book sets out to document quantify and explain the ways in which inequalities of wealth and power create an uneven apportionment of environmental costs across the world It offers a combination of theoretical analysis and empirical evidence to support the author s central contention that greater democratisation and changes in society s relationship with nature are paramount for achieving the dual goals of environmental protection and sustainable development This book is immensely well written makes for a fascinating read Ian Bailey European Spatial Research and Policy Economic activities that degrade the environment do not simply pit humans against nature They also pit some humans against others Some benefit from these activities others bear net costs from pollution and resource depletion In a provocative and original analysis James K Boyce examines the dynamics of environmental degradation in terms of the balances of power between the winners and the losers He provides evidence that inequalities of power and wealth affect not only the distribution of environmental costs but also their overall magnitude greater inequalities result in more environmental degradation Democratization movement toward a more equitable distribution of power therefore is not only a worthwhile objective in its own right but also an important means toward the social goals of environmental protection and sustainable development Combining theoretical analysis with empirical evidence from around the world James K Boyce demonstrates that changes in our relationship with nature ultimately require changes in our relationships with each other He maintains that a more democratic and environmentally sustainable future is possible but warns that it is not inevitable This book will appeal to students scholars policymakers and other readers interested in the environment economics and public policy Global Warming and Climate Change A. Marquina,2010-02-24 This compendium looks at Asian and European policies for dealing with climate change and possible impacts on conflicts and security It clarifies the impacts of climate change on natural resources on the frequency and expansion of natural disasters and the repercussions for environmentally induced migration *The Journal of Environment & Development* ,1996

Harvard Human Rights Journal ,1992 *The Green Tiger* Barbara Goldoftas,2006 The Philippines was once famous for the beauty of its reef ringed islands white beaches and lush forests In less than a half century its forests were felled its oceans over fished and its coral reefs destroyed The rapid harvest of once abundant resources has brought droughts deadly flash floods and the collapse of vital fisheries As the rural economy weakened and millions migrated to cities they overwhelmed the urban infrastructure Today the Philippines stands as an example of the profound and sweeping consequences of ecological decline In *The Green Tiger* Barbara Goldoftas documents this tragic trajectory But hers is not a story of hopelessness and inevitable defeat In lyrical unflinching prose she traces the struggle for conservation in the Philippines from isolated villages to large cities and in the process illustrates the surprising ways in which conservation and
