Setting Up Utilities

“Utilities” describe the services provided by electric, gas, water, cable television, telephone, and internet companies. Once you find a place to live, you will need to set up an account and, in some cases, an in-house installation date with each of these companies before your move-in date to make sure you have access to the service.

Coordinating Utility Set Up

Typically, you can set up gas, electric, water, cable, internet, and telephone service **before you move in**.

Make a list of preferred utility providers in your area. We can help with suggestions.

Plan ahead! Set up all your utilities **as soon as the lease is signed**, so you have proof of utility account set-up before your move-in date.

Important Tips

Gather the required documents before contacting each company.

You will pay each utility bill separately. Pay all your bills on time, and keep records of your payments.
