The Punjab Record, 1889 **Return and Cost of College Education** Bharat Koirala, 2015-03-20 Essay from the year 2014 in the subject Pedagogy School System Educational and School Politics grade A language English abstract Getting a college education has always been a matter of importance in every part of the world. A child joins the school at an early age and continues his/her study for several years. A person invests 15 to 20 years of life getting education from school and colleges. Even though a child learns many necessary things from high school, college education is meant to equip the student with the essential skills required to acquire jobs and improve their living standards. It is also expected to provide students with the credentials needed to get good jobs from employers. They are aware that the student with valuable degrees has the skills to perform their duties efficiently. It is true that the majority of the courses taught in most of the colleges in the world are expensive. Students have to save several thousand dollars to complete the course. But it becomes very hard to earn the sufficient money after getting educated. *Accounts and Papers of the House of Commons* Great Britain. Parliament.
