Scholarships Deal On Sale:

Oregon and California Land Grants ,1916 Sell Transformation, Not Information Or Hype: How Experts Create Offers That Last Sybex Books,2025-06-24 People don't pay for content they pay for change Sell Transformation Not Information Or Hype is your guide to building offers that deliver real results without stuffing them with more modules promising the moon or relying on outdated sales tactics If you've ever wondered why people opt in and still don't convert or why they buy once but never come back it's usually because the promise didn't match the outcome This book helps you close that gap with one clear shift move from teaching stuff to creating transformation Get crystal clear on what actually changes for your buyer Design a journey that supports results Build frameworks that create movement not overwhelm Transformation sells itself when the outcome is obvious the steps are simple and the trust is earned You don't need a huge course or ten bonus PDFs You need a meaningful win and a buyer who sees themselves in the before and after This is how experts become trusted authorities Not by shouting louder But by delivering better Because the market doesn't need more information It needs more clarity more change and more offers that do what they say Build that and they'll keep coming back *Ain't Nobody Be Learnin' Nothin'* Caleb Rossiter,2015-04-01 America's most challenged families are segregated into high poverty schools Despite a 20 year experiment in nationwide school reform few students make it over the slippery bridge to the middle class In this book you will meet the students families teachers and administrators who struggle inside this failed system and consider proposals to give them a fighting chance Caleb Rossiter recounts his experiences as a math teacher of African American 9th and 10th graders in the poorest wards of the nation's capital He describes the obstacles facing teachers who are held accountable for the performance of students whose average skills are years below grade level Rossiter also a professor of statistics at American University explains how the No Child Left Behind law allows school districts to use so called data driven measures of teacher and even school effectiveness that ignore learning deficiencies and behavior patterns that began before a child's first day in school These measures violate basic norms of statistical analysis yet are used to make comparisons and draw policy level conclusions He exposes the pretense of success claimed by school reformers who pressure teachers to award unearned grades and if they won't paper over failure with imitation classes euphemistically termed credit recovery He then offers reasonable solutions that would enable children who attend school ready to learn to be freed from the disruption of poorly socialized peers who can be better served in alternative settings *"The" Athenaeum* ,1892 *The Northern Pacific Land Grants* United States.
