Inside Terrorism has remained the seminal work for understanding the historical evolution of terrorism and the terrorist  
mind set In this revised third edition of his classic text Hoffman analyzes the latest developments in global terrorism offering  
insight into new adversaries motivations strategies and tactics He focuses on the rise of ISIS and the resilience of al Qaeda  
terrorist exploitation of the Internet and embrace of social media radicalization of foreign fighters and potential future trends  
including the repercussions of a post caliphate ISIS Hoffman examines the demographics of contemporary terrorist leaders  
and recruits the continued use of suicide bombers and the likelihood of a chemical biological radiological or nuclear terrorist  
strike He also considers the resurgence of violent antigovernment militants including white supremacists and opponents of
