In This Economy? Kyla Scanlon, 2024-05-30 THE NEW YORK TIMES BESTSELLER Few people can communicate how the economy actually works better than Kyla Scanlon Morgan Housel author of The Psychology of Money The stuff you really need to know about how the economy works It's pretty simple Yes even if you were bored to tears in economics class or if you're cross-eyed from reading painfully convoluted or straight up misguided financial commentary In this particularly disorienting era Kyla Scanlon is the Tim Harford of the disaffected and disillusioned Gen Z looking for answers This is the definitive approachable guide to the key concepts and mechanics of economics and the most common myths and fallacies to steer clear of Through Kyla's trademark blend of creative analogies clever illustrations refreshingly lucid language and even quotes from poetry literature and philosophy she answers questions such as Is our national debt really a threat What is a mild recession exactly What's really happening in the employment market and how do we improve it for workers At a time when experts overcomplicate simple things loudly choosing to generate smoke rather than clearing the air In This Economy shows that understanding the markets and the systems they operate in is easier than you think Whether you're worried about your mortgage rate job security bank account balance or the health of the broader economy this concise and witty guide will give you the confidence to make smarter financial decisions no matter what the headlines say

Breaking Images Brian Greer, David Kollosche, Ole Skovsmose, 2024-12-11 Mathematics is an activity something we do not just something inert that we study This rich collection begins from that premise to explore the various social influences institutional forces and lived realities that shape and mould the study and practice of mathematics and are moulded by it in turn These twenty-one essays explore questions of mathematics as a topic of philosophy but also the nature and purpose of mathematics education and the role of mathematics in moulding citizens It challenges the biases and prejudices inherent within uninformed histories of mathematics including problems of white supremacy the denial of cultural difference and the global homogenization of teaching methods In particular the book contrasts the effectiveness of mathematics and science in modelling physical phenomena and solving technical problems with its ineffectiveness in modelling social phenomena and solving human problems and urges us to consider how mathematics might better meet the urgent crises of our age The book

addresses anybody who is interested in reflecting on the role of mathematics in society from different perspectives It allows mathematicians to ponder about the cultural connections of mathematics and provides new perspectives for philosophical sociological and cultural studies of mathematics Because of the book s emphasis on education in mathematics it is especially interesting for mathematics teachers and teacher educators to challenge their understanding of the subject **Mobile**

Three Rooms Jo Hamya,2021-08-31 A piercing howl of a novel and a tart pleasure with echoes of Zadie Smith and Sally Rooney about one young woman s endless quest for an apartment of her own and the aspirations and challenges faced by the Millennial generation as it finds its footing in the world from a shockingly talented debut author Kirkus starred review A woman must have money and a room of one s own So said Virginia Woolf in her classic *A Room of One s Own* but in this scrupulously observed gorgeously wrought debut novel Jo Hamya pushes that adage powerfully into the twenty first century to a generation of people living in rented rooms What a woman needs now is an apartment of her own the ultimate mark of financial stability unattainable for many Set in one year *Three Rooms* follows a young woman as she moves from a rented room at Oxford where she s working as a research assistant to a stranger s sofa all she can afford as a copyediting temp at a society magazine to her childhood home where she s been forced to return jobless even a room of her own out of reach As politics shift to nationalism the streets fill with protestors and news drip feeds into her phone she struggles to live a meaningful life on her own terms unsure if she ll ever be able to afford to do so The New York Times Index ,2009
