Global Technology Management 4.0 Pratim Milton Datta, 2022-05-21 Technology is pervasive in today's globalized world. Moreover, technology and globalization drive competitiveness and strategy and must be managed well. This textbook uses technology management as the central theme to cover multiple business and social facets including digital transformation, cybersecurity, international operations, marketing, finance, culture, human capital, and the political economy. The book is divided into four sections: Part 1 examines the confluence of globalization and technology from the first Industrial Revolution to the current Fourth Industrial Revolution; Part 2 introduces strategic and analytical metrics and models that are crucial to managerial decision making; Part 3 discusses the basics of cybersecurity and combating cyber threats to protect organization and its stakeholders; Part 4 focuses on sustainable operations, global projects, and digital transformation in a technology-centric globalized world. The book will help students learn how to navigate business aspects of globalization and technology in the 4th Industrial Revolution (4IR). For instructors, the learning objectives and discussion questions help guide students in grasping the material.

Introduction to Information Systems R. Kelly Rainer, Brad Prince, 2022 Introduction to Information Systems 9th Edition delivers an essential resource for undergraduate business majors seeking ways to harness information technology systems to succeed in their current or future jobs. The book assists readers in developing a foundational understanding of information systems and technology and apply it to common business problems. This International Adaptation covers applications of the latest technologies with the addition of new cases from Europe, Middle East, Africa, Australia, and Asia Pacific countries. It focuses on the global business environment for students to understand the norms of using technology while operating on online platforms for exploring new avenues in different geographical locations. The book includes real business scenarios of how latest technologies such as Big Data, Cloud Computing, Blockchain, and IoT are perceived and adopted across countries. New cases highlight key technology issues faced by organizations such as designing and implementing IT security policies, dealing with ethical dilemmas of securing customer data, moving IT infrastructure to cloud, and identifying how AI can be used to improve the efficiency of business operations.
