Epstein, 2024-10-29 An urgently needed exploration of global technology worship and a measured case for skepticism and agnosticism as a way of life from the New York Times bestselling author of Good without God Today s technology has overtaken religion as the chief influence on twenty first century life and community In Tech Agnostic Harvard and MIT s influential humanist chaplain Greg Epstein explores what it means to be a critical thinker with respect to this new faith Encouraging readers to reassert their common humanity beyond the seductive sheen of tech this book argues for tech agnosticism not worship as a way of life Without suggesting we return to a mythical pre tech past Epstein shows why we must maintain a freethinking critical perspective toward innovation until it proves itself worthy of our faith or not Epstein asks probing questions that center humanity at the heart of engineering Who profits from an uncritical faith in technology How can we remedy technology s problems while retaining its benefits Showing how unbelief has always served humanity

Epstein revisits the historical apostates skeptics mystics Cassandras heretics and whistleblowers who embody the tech reformation we desperately need He argues that we must learn how to collectively demand that technology serve our pursuit of human lives that are deeply worth living In our tumultuous era of religious extremism and rampant capitalism Tech Agnostic offers a new path forward where we maintain enough critical distance to remember that all that glitters is not gold nor is it God Exponential Azeem Azhar,2021-09-07 The Times and Financial Times Book of the Year Enticing Sunday Times Engaging Financial Times Essential Reid Hoffman ____ As technology accelerates the human mind struggles to keep up and our companies workplaces and democracies get left behind This is the exponential gap Now a leading technologist explores how this exponential gap is rewiring our world and reveals how we should respond ____ The sheer might of technology giants is one of the great challenges of our time Azeem Azhar s excellent book Exponential offers some solutions Amol Rajan BBC News Azhar has a knack for interrogating and inverting conventional thinking A convincing case that something extraordinary is taking place in business and society Economist Deft and clear eyed Perhaps Azhar s most valuable insight is that conservatively managing the individual risks posed by new technologies will not suffice Financial Times Speaks powerfully about how we need to shape technology to put it back in the service of society Guardian Valuable and timely A diligent and comprehensive definition of a new phase in human affairs Sunday Times *ESF Info Review* ,1998-05

alignment with its DNA it will resonate authentically and establish its role and relevance even in the face of a major competitor Get to Aha presents a clear step by step framework that will help you determine your company s precise position in the marketing landscape using Andy s DNA based methodology It takes you through the process of performing genetic testing on your company examining the market through the six Cs of positioning and developing your positioning statement a rational factual statement about your company s role and relevance Then and only then can you create a branding and marketing strategy that will build market momentum and crush the competition Trust Andy Steve Jobs did [News Letter](#) ,1971 *Der Spiegel* Rudolf Augstein,2019 **How Big-Tech Barons Smash Innovation—and How to Strike Back** Ariel Ezrachi,Maurice E.
