Der Markt für Managementwissen Kathrin Möslin, 2005-03-30 Kathrin M Moslein begreift Managementwissen als gestaltbare und zu gestaltende strategische Ressource und exploriert institutionell angelegte Instrumente Teilsysteme und Systeme der Generierung von Management und Führungswissen im Unternehmen Ihre Entdeckungen und Erkenntnisse bieten Ansatzpunkte für neue Formen der Generierung von Managementwissen auf inhaltlich theoretischer prozessual methodischer sowie institutionell organisatorischer Ebene *Leading Academic Change*

Elaine P. Maimon, 2023-07-03 Written by a sitting college president who has presided over transformative change at a state university this book takes on the big questions and issues of change and change management what needs to be done and how to do it Writing in a highly accessible style the author recommends changes for higher education such as the reallocation of resources to support full time faculty members in foundation level courses navigable pathways from community college to the university infusion rather than proliferation of courses and the role of state universities in countering the disappearance of the middle class The book describes how these changes can be made as well as why we must make them if our society is to thrive in the twenty first century *The Role of Leaders and Actors in Academy-Business Partnerships: Issues of Risk, Trust, Power, Ethics, and Cooperation* Clevenger, Morgan R., Kretoivics, Mark, Watts, Jessica Shepard, 2024-09-17

In academic business partnerships many challenges plague both sides of the equation From navigating complex power dynamics to ensuring ethical conduct managing risk and fostering trust these collaborations often seem to walk a tightrope without a safety net The critical actors involved such as university leaders corporate executives and government policymakers often struggle to strike the delicate balance required for success It is a world where mishaps are as common as best practices and the potential for growth and innovation remains untapped due to these hurdles The Role of Leaders and Actors in Academy Business Partnerships Issues of Risk Trust Power Ethics and Cooperation emerge as the guiding light in this labyrinthine journey This book does not just highlight the issues it presents concrete solutions By offering a comprehensive exploration of the roles and responsibilities of key players from university presidents to corporate executives it equips readers with the knowledge and tools needed to navigate the intricate dynamics of these partnerships successfully With real world examples of best practices and the cautionary tales of the dark side of leadership this book empowers academic scholars and corporate leaders alike to make informed decisions and forge collaborations that truly benefit both sides Working Alternatives John

C. Seitz, Dr. Christine Firer Hinze, 2020-07-07 Working Alternatives explores economic life from a humanistic and multidisciplinary perspective with a particular eye on religious implications in practices of work management supply production remuneration and exchange Its contributors draw upon historical ethical business and theological conversations considering the sources of economic sustainability and justice The essays in this book from scholars of business religious ethics and history offer readers practical understanding and analytical leverage over these pressing issues Modern Catholic social teaching a 125 year old effort to apply Christian thinking about the implications of faith for social political and economic circumstances provides the key springboard for these discussions Contributors Gerald J Beyer Alison Collis Greene Kathleen Holscher Michael Naughton Michael Pirson Nicholas Rademacher Vincent Stanley Sandra Sullivan Dunbar Kirsten Swinth Sandra Waddock Resources in Education, 1999-10 **Collision Course** Robert C.
