

5 HACKS FOR A BETTER SLEEP

1. AVOID STIMULANTS

Avoid using Stimulants like **Coffee or Tea** after 4:00 PM as caffeine may inhibit Melatonin production.

2. GET SUNSHINE

Sunlight promotes **Vitamin D** which helps in improving sleep pattern and alleviate depression.

3. WARM SHOWER

Researchers suggest a **warm shower** before bed helps people fall asleep faster.

4. LIMIT GADGETS USE

Avoid Using Phones, T.V or any other gadgets **30 mins before** you go to the bed.

5. TRY SLEEP WELL

Sleep Well contains **Melatonin**, a hormone that regulates sleep. Taking Sleep Well supplement can

Sleep Hacks Today Clearance:

Hacking Neuroplasticity Joyce Shaffer, 2024-11-29 Neuroplasticity is the ability of neural networks in the brain to change through growth and reorganization. It is when the brain is rewired to function in some way that differs from how it previously functioned. How does aging affect neuroplasticity? As we grow older, plasticity decreases to stabilize what we have already learned. What influence does the aging process have on memory? Forgetfulness can be a normal part of aging. As people get older, changes occur in all parts of the body, including the brain. As a result, some people may notice that it takes longer to learn new things, they don't remember information as well as they did, or they lose things like their glasses. This book on evolving neuroscience is unique in its lifespan focus on driving neuroplasticity in a positive direction to influence the Flynn effect of increasing human intelligence as the preferred way to prevent delay onset and/or reverse dementia. It considers potential impact from the first moments of life through end of life. It includes intergenerational activities. Its inclusion of centenarians and supercentenarians provides examples of Super Agers who have maintained and/or increased neurocognitive capacity, often with a health span that approximated their vigorous longevity. It discusses the use of the Artificial Intelligence (AI) revolution to refine, personalize, and broaden our global reach to enhance the Flynn effect as the preferred effort to improve global statistics on neurocognitive functioning at any age. Driving neuroplasticity in a positive direction at all ages is urgent. With this book's focus on evidence-based interventions at any age, which can have physical, emotional, neurobiological, neurochemical, immunological, and social health benefits, it is a unique overview and application of evolving neuroscience to address the UN WHO Decade of Action for Healthy Ageing for All.

The Highland Clearances John Prebble, 1982-03-25 In the terrible aftermath of the moorland battle of Culloden, the Highlanders suffered at the hands of their own clan chiefs. Following his magnificent reconstruction of Culloden, John Prebble recounts how the Highlanders were deserted and then betrayed into famine and poverty. While their chiefs grew rich on meat and wool, the people died of cholera and starvation or evicted from the glens to make way for sheep. Those forced to emigrate to foreign lands. Mr. Prebble tells a terrible story excellently. There is little need to search further to explain so much of the sadness and emptiness of the northern Highlands today. *The Times*

Sleeping Dogs Lying Kenneth O'Hara, 1962

Mastering the Art of Sales Engineering Jeffrey Silver, Jason Mar-Tang, 2024-09-30 Learn from the authors' combined 35 years of field experience along with real-world examples and stories to advance your career in the highly coveted field of sales engineering.
