Suicidal Jesse Bering, 2020-10-23 For much of his thirties Jesse Bering thought he was probably going to kill himself. He was a successful psychologist and writer with books to his name and bylines in major magazines. But none of that mattered. The impulse to take his own life remained. At times it felt all but inescapable. Bering survived. And in addition to relief, the fading of his suicidal thoughts brought curiosity. Where had they come from? Would they return? Is the suicidal impulse found in other animals? Or is our vulnerability to suicide a uniquely human evolutionary development? In *Suicidal*, Bering answers all these questions and more, taking us through the science and psychology of suicide, revealing its cognitive secrets and the subtle tricks our minds play on us when we're easy emotional prey. Scientific studies, personal stories and remarkable cross-species comparisons come together to help readers critically analyze their own doomsday thoughts while gaining broad insight into a problem that tragically will most likely touch all of us at some point in our lives. But while the subject is certainly a heavy one, Bering's touch is light. Having been through this himself, he knows that sometimes the most effective response to our darkest moments is a gentle humor, one that while not denying the seriousness of suffering, at the same time acknowledges our complicated, flawed and yet precious existence. Authoritative, accessible, personal, profound, there's never been a book on suicide like this. It will help you understand yourself and your loved ones and it will change the way you think about this most vexing of human problems.

A Very Human Ending Jesse Bering, 2018-08-23 I have yet to come away from reading Bering's work and not feel considerably better informed than I was minutes before Forbes _____ This penetrating analysis aims to demystify a subject that knows no cultural or demographic boundaries Why do people want to kill themselves Despite the prevalence of suicide in the developed world it's a question most of us fail to ask On hearing news of a suicide we are devastated but overwhelmingly we feel disbelief In *A Very Human Ending* research psychologist Jesse Bering lifts the lid on this taboo subject examining the suicidal mindset from the inside out to reveal the subtle tricks the mind can play when we're easy emotional prey In raising challenging questions Bering tests our contradictory superstitions about the act itself Combining cutting edge research with investigative journalism and first person testimony Bering also addresses the history of suicide and its evolutionary inheritance to offer a personal accessible yet scientifically sound examination of why we are the only species on earth that deliberately ends its own life
