*Decolonizing Marketing Theory and Practice* Hasan Gilani, 2024-11-22 In academic institutions worldwide, the call to decolonize the syllabus, curriculum, and the entire university experience is growing louder and more urgent. Yet the conversation must extend beyond blogs, hashtags, and social media trends. This book dives deep into the critical need to challenge and transform the foundations of marketing education. Addressing the urgent need for deeper conversations, this book delves into the multifaceted process of decolonizing marketing theory and practice to foster a more inclusive field. Through an insightful collection of contributions, this book critically examines the entrenched roots of colonization, capitalism, and inequality, urging us to move beyond simply adding non-white authors and non-Western case studies to the curriculum. Decolonization should begin with a focus on inclusivity and equality, progressing towards the recognition and exploration of diverse contexts and paradigms. Through rigorous analysis and innovative perspectives, this book identifies key areas in marketing pedagogy that require decolonization, urging a move away from exclusionary practices and Western-centric ideologies. It identifies crucial areas where texts, knowledge, and contexts need to be decolonized, advocating for a paradigm shift from a culture of exclusion and Western-centric ideologies to one that embraces inclusivity and a broad range of philosophical perspectives from the non-Western world. Aimed at researchers and academics in the field of marketing, this book offers a profound exploration of teaching and

learning dynamics from a more inclusive and diverse perspective By fostering engagement with a wider audience it seeks to enrich the discourse around marketing education with a more nuanced and enriched perspective Decolonizing Marketing Theory and Practice is an essential resource for those committed to creating a more equitable and comprehensive understanding of marketing in a global context

*Futureproof* Kevin Roose, 2021-03-04 A New York Times bestselling author and tech columnist's counter intuitive guide to staying relevant and employable in the machine age by becoming irreplaceably human It's not a future scenario any more We've been taught that to compete with automation and AI we'll have to become more like the machines themselves building up technical skills like coding But there's simply no way to keep up What if all the advice is wrong And what do we need to do instead to become futureproof We tend to think of automation as a blue collar phenomenon that will affect truck drivers factory workers and other people with repetitive manual jobs But it's much much broader than that Lawyers are being automated out of existence Last year JPMorgan Chase built a piece of software called COIN which uses machine learning to

review complicated contracts and documents It used to take the firm s lawyers more than 300 000 hours every year to review all of those documents Now it takes a few seconds and requires just one human to run the program Doctors are being automated out of existence too Last summer a Chinese tech company built a deep learning algorithm that diagnosed brain cancer and other diseases faster and more accurately than a team of 15 top Chinese doctors Kevin Roose has spent the past few years studying the question of how people communities and organisations adapt to periods of change from the Industrial Revolution to the present And the insight that is sweeping through Silicon Valley as we speak that in an age dominated by machines it s human skills that really matter is one of the more profound and counter intuitive ideas he s discovered It s the antidote to the doom and gloom worries many people feel when they think about AI and automation And it s something everyone needs to hear In nine accessible prescriptive chapters Roose distills what he has learned about how we will survive the future that the way to become futureproof is to become incredibly irreplaceably human [Sea Change, do change](#) FRANK DAPPAH, Let s talk about what we all just went through I am talking about the dramatic ways in which 2020 and all that happened have changed the way we look at life Most entrepreneurs I know have expressed the need they feel to innovate to help mankind deal with the challenges and opportunities ahead In this book I tackle some of these topics I delve into the world of Equity Crowdfunding innovation positioning one s startup to thrive in the era of COVID and so much more
