Referendums A Comparative Study Of Practice And Theory:

Referendums David Butler, Austin Ranney, 1980 **Die Logik direkter Demokratie** Sabine Jung, 2013-12-11 In diesem Buch wird erstmals eine ausgearbeitete Theorie über den Zusammenhang von Demokratietypen und den verschiedenen direktdemokratischen Verfahren vorgelegt. Die Autorin beantwortet die Frage: Welche direktdemokratischen Verfahren sind mit welchen Typen der Demokratie kompatibel? Dafür legt sie nicht nur eine selbst entwickelte Demokratietypologie vor, sie kann auch eine theoretisch fundierte Lösung zur Debatte über direkte Demokratie in der Bundesrepublik vorweisen. A Comparative Study of Referendums Mads Qvortrup, Matt Qvortrup, 2005 Fully revised and with new chapters on campaign spending and the administration of referendums the second edition of this book provides a thorough overview of the theory and practice of referendums. Direkte Demokratie und Umweltpolitik Thomas Gebhart, 2013-03-12 Thomas Gebhart untersucht am Beispiel der Schweiz, ob und wie sich unterschiedliche direktdemokratische Entscheidungsverfahren auf die Gesetzgebungstätigkeit insbesondere im Bereich Umweltpolitik auswirken. The Limits and Legitimacy of Referendums Richard Albert, Richard Stacey, 2022-04-25 The possibility of democracy enhancing uses and anti democratic abuses of referendums reveals a paradox: mechanisms of democracy can be exploited to do violence to the basic principles of democracy. The Limits and Legitimacy of Referendums seeks to identify standards we might use to assess the democratic legitimacy of a referendum when we cannot rely on the norms of traditional liberal democracy. This innovative book explores how referendums manage the tension between liberalism and democracy and whether this device holds promise for reconciling these two commitments. A range of scholars from around the world expose how referendums may be abused on one hand to achieve short term political or even personal gains and how on the other they may aspire to reflect the best traditions of deliberative innovative democracy enhancing popular decision making. Structured around three big questions, this book seeks to identify what makes a referendum legitimate. First, why have referendums on issues of fundamental political importance become so frequent around the world? Second, who are or who should be the people that make decisions about a political community's future? And third, are referendums an effective and reliable mechanism of popular sovereignty or democratic choice? These essays, written for scholars, public lawyers, political actors and citizens, bring together diverse perspectives on referendums, constitutionalism, liberalism and democracy in ways that challenge the conventional wisdom, prompt new answers to enduring questions and urge reconsideration of how we evaluate the legitimacy of referendums.

The Routledge Handbook to Referendums and Direct Democracy Laurence Morel, Matt Qvortrup, 2017-12-12 Over the last 30 years referendums have played an increasingly important role in determining government policy. Recent high profile referendums in Scotland, Catalonia and Ukraine have continued the movement towards independence referendums following decolonization and the end of the Cold War. The Greek bailout referendum and Britain's vote on membership of the EU reflect a tradition of European states giving their people a direct say in the transfer of sovereign powers to the European Union, seen

through the ratification of key treaties such as Maastricht Amsterdam Nice and Lisbon This Routledge Handbook covers key aspects and issues of direct democracy and referendums throughout the world including their history when why where how and on which issues referendums are held why some referendums are more democratic than others how referendums are won whether they produce good policies if referendums increase participation and improve the quality of representative democracies do referendums increase trust in democracy and the political actors the impact of new technology on the possibilities methods and frequency of direct public political participation how they should be regulated Covering other related areas such as recall citizen juries and random selection this compendium is an indispensable guide to referendums and the workings of modern democracy *Wenn Parlamente vors Volk ziehen* Nils Arne Brockmann, 2021-10-25
