Internet Memes and Copyright Law Brian Chun Lok Leung, 2025-09-30

This book explores the intricate relationship between copyright law and internet meme culture challenging an assumption that copyright is a barrier to digital creativity Using the lens of internet memes to analyse copyright law in the context of participatory remix culture the book confronts a common perception that copyright is the destroyer of internet memes on social media platforms Following the European Union's Copyright Directive widely known as the Meme Ban this book critically examines whether copyright might instead be reimagined to foster rather than inhibit re creations that define internet meme culture The book argues that this culture directly challenges copyright's core assumptions and proposes a new holistic approach to copyright that distinguishes between traditional and emergent forms of creative processes Arguing for a flexible interpretation of copyright that limits private proprietary rights in the case of internet memes it provides a legal framework to support socio cultural discourse without undermining copyright's foundational principles Covering core copyright concepts such as authorship idea expression originality fair dealing and user rights the book provides a compelling argument as to how copyright can adapt to the digital age as a protector of cultural expressions ensuring that internet memes are not only preserved but celebrated The book will be of interest to researchers in the field of copyright law the law of emerging technologies and intellectual property law

Emerging Perspectives in the Study of

Folklore and Performance Solimar Otero, Anthony Bak Buccitelli, 2025-05-27 Just over half a century ago the rise in what became known as the performance turn in folklore studies led to the diffusion of performance as both a lens and a key concept across a wide range of humanistic disciplines Now it's time to take stock of the myriad ways in which performance and folklore studies have developed along both parallel and intersecting paths Emerging Perspectives in the Study of

Folklore and Performance reveals the captivating world where folklore and performance studies meet up revealing both the connections and disparities between the two fields From the mid 20th century to the present day luminaries like Richard Bauman Erving Goffman Roger Abrahams Charles Briggs Richard Schechner Dell Hymes Jos Esteban Muñoz Peggy Phelan Barbara Kirshenblatt Gimblett Deborah Kapchan and Diana Taylor have woven a rich tapestry of discourse seamlessly blending the realms of folklore and performance Editors Solimar Otero and Anthony Bak Buccitelli present a magnificent collection of chapters that delve into the intricacies of this enduring relationship These diverse essays explore how folklore and performance intersect in realms as varied as digital culture social movements ritual narrative race and technology archival practices ambient play post human intersectionalities speculative world making and embodied knowledge Emerging Perspectives in the Study of Folklore and Performance is a must read for scholars students and enthusiasts alike offering fresh insights into the evolving landscape of folklore and performance studies and transforming the ways that we connect to culture place and community

Becoming Human Amid Diversions Andreas Ervik, 2022-11-15 This book develops a philosophy of the predominant yet obtrusive aspects of digital culture arguing that what seems like insignificant distractions of digital technology such as video games mindless browsing cute animal imagery political memes and trolling are actually keyed into fundamental aspects of evolution These elements are commonly framed as distractions in an economy of attention and this book approaches them with the prospect of understanding their attraction from the starting point of diversions Diversions designate not simply shifting states of attention but characterize the direction of any system on a different course a theoretical perspective which makes it possible to investigate distractions as not only by products of contemporary media and human attention The perspective shifts from distractions as the unwanted and inconsequential to considering instead the function of diversions in the process of evolutionary development Grounded in media theory but drawing from diverse interdisciplinary perspectives in biology philosophy and systems theory this book provocatively theorizes the process of diversions of the playful stupid cute and funny as significant for the evolution of a range of organisms

Stance-Taking in Embodied and Virtual Interaction Geert Brône, Kurt Feyaerts, Elisabeth Zima, Silva H. Ladewig, 2025-08-28 A fundamental property of human language is its ability to simultaneously represent subjects objects or events and express the speaker's stance towards these representations The notion of stance taking involves a positioning along three different axes epistemic the distribution of knowledge e.g. by expressing certainty or uncertainty affective the expression of attitudes and feelings and deontic the expression of desirability or necessity of an action Psycho linguistics and neighboring fields have a long track record in the study of stance taking as a socially contextualized and recognized interpersonal phenomenon focusing on the lexical and grammatical resources that language users have at their disposal to communicate stance but also on the cognitive processes underlying this positioning In addition the phenomenon has been studied extensively in different communicative settings from spontaneous face to face communication to institutional and mediated forms of interaction from different
