Education is threatened on a global scale by forces of neoliberalism through high stakes accountability privatization and a destructive language of learning In all respects a GERM Global Education Reform Movement has erupted from international benchmark rankings such as PISA TIMSS and PIRL causing inequity narrowing of the curriculum and teacher deprofessionalization on a truly global scale In this book teachers from around the world and other educational experts such as Andy Hargreaves Ann Lieberman Stephen Ball Gert Biesta Tom Bennett and many more make the case to move away from this uneducational economic approach to instead embrace a more humane more democratic approach to education This approach is called flipping the system a move that places teachers exactly where they need to be at the steering wheel of educational systems worldwide This book will appeal to teachers and other education professionals around the world

**Who Gets In and Why** Jeffrey Selingo, 2020-09-15 From award winning higher education journalist and New York Times bestselling author Jeffrey Selingo comes a revealing look from inside the admissions office one that identifies surprising strategies that will aid in the college search Getting into a top ranked college has never seemed more impossible with acceptance rates at some elite universities dipping into the single digits In Who Gets In and Why journalist and higher education expert Jeffrey Selingo dispels entrenched notions of how to compete and win at the admissions game and reveals that teenagers and parents have much to gain by broadening their notion of what qualifies as a good college Hint it's not all about the sticker on the car window Selingo who was embedded in three different admissions offices a selective private university a leading liberal arts college and a flagship public campus closely observed gatekeepers as they made their often

agonizing and sometimes life changing decisions He also followed select students and their parents and he traveled around the country meeting with high school counselors marketers behind the scenes consultants and college rankers While many have long believed that admissions is merit based rewarding the best students Who Gets In and Why presents a more complicated truth showing that who gets in is frequently more about the college s agenda than the applicant In a world where thousands of equally qualified students vie for a fixed number of spots at elite institutions admissions officers often make split second decisions based on a variety of factors like diversity money and ultimately whether a student will enroll if accepted One of the most insightful books ever about getting in and what higher education has become Who Gets In and Why not only provides an unusually intimate look at how admissions decisions get made but guides prospective students on how to honestly assess their strengths and match with the schools that will best serve their interests **The American School**
