Fitness for Life Charles B. Corbin,2010 A program that focuses attention on schoolwide wellness during four weeks of the school year Helps schools incorporate coordinated activities that will enable them to meet national standards and guidelines for physical activity and nutrition 5 Pounds Harley Pasternak,2015-03-03 For most people the hardest part of lasting weight loss is either getting started or reaching their goals too often motivation is tough to maintain or those final few pounds simply won't budge no matter how many hours are logged on the treadmill and how many calories counted Now from the New York Times bestselling author of The Body Reset Diet comes a deceptively simple plan to slim down whether you need to shed those last few stubborn pounds or want to jump start a more significant weight loss effort 5 Pounds teaches you how to implement five simple strategies as daily habits Walk 5 miles a day Eat protein and fiber 5 times a day Do resistance exercise 5 minutes a day Sleep at least 7 hours a night Unplug at least 1 hour a day You will enjoy immediate results dropping 5 pounds or more in just 5 days and boost energy improve overall health and finally achieve long term weight loss success With step by step advice easy to prepare recipes and motivating success stories 5 Pounds will transform the way you look and feel forever *Holistically healthy humans: championing mental and physical wellbeing in education* Michelle Jayman,Anthea Rose,Jonathan Glazzard ,Aimee Quickfall,2025-12-03 Public health data shows that addressing the global mental health crisis is more challenging in the post pandemic environment The poorest children are four times more likely to experience difficulties than their wealthiest counterparts Crucially health does not operate at a singular level mental and physical health are inextricably linked Our physical body depends on our mental state and vice versa and improvement or decline in one area can trigger improvement or decline in the other For example many mental health difficulties and the associated stress they cause can disrupt sleep which is harmful to physical health over time Therefore it is vital to understand and engage with health and wellbeing from a holistic perspective Clearly a better understanding of the relationship between mind and body is imperative to help researchers practitioners and policymakers tackle co existing conditions support those experiencing difficulties and promote universal healthy behaviours to ameliorate the current crisis This Research Topic aims to explore the bi directional relationship between mental and physical health and ways of developing holistic wellbeing and healthy lifestyle practices The benefit of physical activity on the mental wellbeing of children and young people is strongly supported Numerous psychological effects including on self esteem cognitive function mood depression and quality of life have been shown and the body and brain are both extremely responsive to change Exercise can enhance mood and self esteem while decreasing stress levels Pertinently stronger effects were found when

participation in physical activity occurred in a school based setting Conversely poor physical health significantly increases the risk of mental health difficulties often accompanied with physical symptoms such as headaches and poor sleep This Research Topic will provide a wide reaching forum to present the latest research evidence on the essential components of wellbeing under one holistic lens Furthermore by adopting a health promotion and prevention framework it aims to offer pathways from research to practice for schools colleges and universities Specifically by providing practical solutions for adaptation and implementation at a local level Thus this Research Topic encourages the universal adoption of evidence based best practices and the championing of holistic wellbeing approaches across diverse education settings This Research Topic is broad in scope with its commitment to exploring wellbeing in education from a holistic lens and the parity of esteem between mental and physical health Mental and physical health themes and integrated approaches are equally relevant contributions Health topics include nutrition poor diet may be a causal factor in the experience of low mood and improving diet may help to protect not only physical health but mental health too With a key focus on prevention and promotion and support systems and interventions in educational settings articles featuring primary research on modifiable factors such as diet exercise and psychosocial interventions are welcomed Other pertinent topics may include integration of physical and mental health services support vulnerable groups and inequalities in health addressing access barriers and treatment gaps harnessing digital health technologies training across physical and mental health support in schools and other educational settings and integrating holistic wellbeing into daily life Policy and review manuscripts are also of interest
