Shoven, John Whalley, 2007-12-01 In the increasingly global economy domestic tax policies have taken on a new importance for international economics This unique volume compares the tax reform experiences of Canada and the United States two countries with the world's largest bilateral flow of trade and investment With the signing of the U S Canada Free Trade Agreement and the tax reforms of the 1980s there has been some harmonization of tax systems But geographic cultural and political characteristics shape distinct national social policies that may impede harmonization As the U S and Canadian economies become even more integrated differences in tax systems will have important effects in particular on the relative rates of economic growth In this timely study scholars from both countries show that while the United States and Canada exhibit similar corporate tax structures and income tax systems they have very different approaches to sales tax and social security taxes Despite these differences the two countries generate roughly the same amounts of revenue produce similar costs of capital and produce comparable distributions of income Tax Policy Reforms 2022 OECD and Selected Partner Economies OECD, 2022-09-21 This is the seventh edition of Tax Policy Reforms OECD and Selected Partner Economies an annual publication that provides comparative information on tax reforms across countries and tracks tax policy developments over time The report covers the tax policy reforms introduced or announced in 71 member jurisdictions of the OECD G20 Inclusive Framework on Base Erosion and Profit Shifting including all OECD countries for the 2021 calendar year In addition to providing an overview of tax policy reforms and the macroeconomic and tax revenue context in which measures were introduced the report also contains a Special Feature that examines government responses to rising energy prices and offers some policy recommendations in the event that prices remain high The Oxford Handbook of State and Local Government Finance Robert D. and local sector The chapters in Section II provide an overview of the various components of state and local revenue systems and how they reacted to the Great Recession They analyze the diverse forms of taxes and charges in detail prescribe remedies and alternatives and examine the implications for future revenue performance Chapters in Section III turn to spending borrowing and financial management in the state and local sector The focus is on the big six service delivery sectors education health care human services transportation pensions and housing Section IV is a set of chapters that look ahead and speculate about how the state and local government sector's money raising spending and service delivery structures will adjust to the new circumstances
