Sauvagnargues, 2016-03-07 Across 13 essays 12 of which were previously unavailable in English Deleuze specialist Anne Sauvagnargues reveals the continuing potential of Deleuze Guattari and Simondon to invent new concepts and new modes of creativity and existence She redeploys their work together with other key philosophers including Bergson Lacan Deligny and Ruyer to create new concepts including geophilosophy the artmachine the ritornello schizoanalysis and the machinic assemblage

The Image in French Philosophy Temenuga Trifonova, 2007-01-01 The Image in French Philosophy challenges dominant interpretations of Bergson Sartre Lyotard Baudrillard and Deleuze by arguing that their philosophy was not a critique but a revival of metaphysics as a thinking pertaining to impersonal forces and distinguished by an aversion to subjectivity and an aversion of the philosophical gaze away from the discourse of vision and thus away from the image Insofar as the image was part of the discourse of subjectivity representation getting rid of the subject involved smuggling the concept of the image out of the discourse of subjectivity representation into a newly revived and ethically flavored metaphysical discourse a metaphysics of immanence which was more interested in consciousness rather than subjectivity in the inhuman rather than the human in the virtual rather than the real in Time rather than temporalization in Memory rather than memory images in Imagination rather than images in sum in impersonal forces de personalizing experiences states of dis embodiment characterized by the breaking down of sensory motor schemata Bergson s pure memory Sartre s image consciousness Deleuze s time image or more generally in that which remains beyond representation i e beyond subjectivity Lyotard s sublime Baudrillard s fatal object The book would be of interest to scholars and students of philosophy aesthetics and film theory

The Journal of Imaging Science and Technology, 1992 **Mathematical Modeling, Estimation, and Imaging** David C. Wilson, 2000 **Theories of the Soundtrack** James Buhler, 2018-10-03 A theory of the soundtrack is concerned with what belongs to the soundtrack how a soundtrack is effectively organized how its status in a multimedia object affects the nature of the object the tools available for its analysis and the interpretive regime that the theory mandates for determining the meaning sense and structure that sound and music bring to film and other audiovisual media Beyond that a theory may also delineate the range of possible uses of sound and music classify the types of relations that films have used for image and sound identify the central problems and reflect on and describe effective uses of sound in film This book summarizes and critiques major theories of the soundtrack from roughly 1929 until today Rather than providing an exhaustive historical survey it sketches out the range of theoretical approaches that have been applied to the soundtrack since the commercial introduction of the sound film The basic theoretical framework of each approach is presented taking into account the explicit and implicit claims about the soundtrack and its relation to other theories The organization is both chronological and topical the former in that the chapters move steadily from early film theory through models of the classical system to more recent critical theories the latter in that the chapters highlight central issues for each generation the problem of film itself then of image and sound of adequate analytical descriptive models and finally of critical interpretative models
