Where People and Projects Meet Mariette Keshishian, Patricia Walkow, 2010-02-04 People They can make a project successful or they can make it a certain failure without intentionally trying to do either The history of project management is filled with case after case of project failures Poor sponsorship unclear objectives lack of commitment employee resistance to change unprepared business users weak project leadership poor team dynamics and poor planning for the change management activities are the top reasons why projects fail How do you navigate a project through organizational politics How do you effectively work with key stakeholders How do you implement effective project governance How do you engage and work with the project sponsor How do you get the business ready How do you become a credible leader How do you get the project team to work like a team How do you deal with conflict How do you plan for project resources and bring them on board How do you understand and capitalize on people's motivations All of these are people related issues A project may have the greatest technology the most knowledgeable team and a fantastic budget Even with all of this when the people side of a project is ignored under budgeted or considered fluff the likelihood of the project being less than successful increases As experienced project managers the tools we offer have been forged in the white hot furnace of large scale change projects They are strong they are appropriate for the task and they are effective We invite you to use them

The People Side of Project Management Ralph L. Kliem, Irwin S. Ludin, 1995 People and Projects Nicole Bremer-Ammann, 2010 The instrumental aspects of project management are important of course But instrumental aspects alone will not guarantee success Projects are always carried out by people and it is precisely the behaviour of people that will in many instances define the success of a project The author goes into all the important aspects of project management She offers practical advice to project leaders and spends some time focusing among others on dealing with conflict and team roles Bron Flaptekst uitgeversinformatie
